

STATE'S STAR WITNESS IN KIRKLAND CASE GONE

Pope Pius Discusses Capital and Labor On Radio

RECONSTRUCTION WORLD ECONOMIC SYSTEM NEEDED

Pontiff's Views To Be Set Forth Fully In New Encyclical

New York, May 15—(AP)—The voice of Pope Pius XI was heard clearly throughout America and most of the world again today in his address via radio from station HXJ, Vatican City.

Reception was equally as good as on the occasion of his first talk Feb. 12, in which nation wide networks participated, as they did today.

Fading and static were entirely absent. Engineers said the reception on this side of the Atlantic was as near ideal as they could hope for.

As the speakers talked in various tongues, in the background could be heard the band of the Palatine Guards and the singing of the chorus of the Pilgrims.

This broadcast, like that of Feb. 12, when Pope Pius dedicated HVJ, was brought to America on the short wave channel of 19.84 meters, picked up at several points on the Atlantic coast and transferred to both the National Broadcasting Company and the Columbia networks.

By FRANCIS REA
United Press Staff Correspondent
Vatican City, May 15—(UP)—Reconstruction of the world's entire economic system to bring about a more equitable distribution of wealth between capital and labor was set forth as a principle today by Pope Pius XI in the most significant pronouncement of the church on social conditions since the time of Leo XIII.

The Pope, addressing 7,000 pilgrims of various nationalities gathered to celebrate the 40th anniversary of Pope Leo's famous encyclical on labor, "Rerum Novarum," introduced a summary of his own forthcoming encyclical, distributed to his auditors, reaffirming and elaborating in the light of modern conditions his predecessor's pronouncements.

The Pope's address was broadcast from the Vatican City radio station and rebroadcast in America, so that millions were enabled to listen in on the historic occasion.

In the past, the Pope said in the summary, there has been an unquestioned excessive and unjust distribution of the commodities of life between capital and labor, and immense riches were accumulated in the hands of the few while the proletariat had nothing of their own save their hands and the sweat of their brow.

Reconstruction Needed
"Therefore," he continued, "it is absolutely necessary to reconstruct the whole economic system by bringing it back to the requirements of social justice in order to ensure more equitable distribution of the united proceeds of capital and labor."

"Thus will be achieved that uplifting of the proletariat which Pope Leo XIII so ardently desired. The differences in social conditions of the human family which have been wisely decreed by the Creator must not and cannot ever be abolished, but on the other hand the condition of the proletariat cannot forever be the normal condition of the bulk of mankind."

In the above passage, the Pope made it clear that the reducing of all mankind to a common level, as sought in Soviet Russia, is opposed by the church.

The Pope's address was read in the courtyard of St. Damasus, beside the medallion on which the name of the new encyclical is engraved alongside that of the Rerum Novarum. The new encyclical is called "Quadragesimo Anno," deriving its name from the first two words of the text.

Summary Prepared

The encyclical begins by recalling how necessary and opportune was the publication of the Rerum Novarum 40 years ago. The Pope said he desired to communicate a summary in advance of the new document to his faithful sons gathered around their common Father.

Referring to the growth of workingmen's organizations, the encyclical says that such associations, by putting into practice the principles laid down by Leo XIII and confirmed by his successors, have merited well of civilization and contributed to true social prosperity. The Pope described the Rerum Novarum encyclical as the Magna Carta of all Catholic activities in the social sphere.

The new encyclical indicates it is the full right and solemn duty of the head of the church to intervene in social problems where they fall within the scope of the moral and evangelical law. Discussing the relations of capital and labor, it reiterates that neither have the right to demand for themselves alone all the profits of the mutual collaboration and recalled the words of Leo

HEAD NEW YORK COMMITTEE HIT AT MAYOR AGAIN

Repeats Attack On the Private Life Of Jimmy Walker

New York, May 15—(AP)—Alan Fox, Chairman of the City Affairs Committee of the National Republican Club, whose attack on Mayor Walker's private life was censored by the club members, today issued a pamphlet repeating the charges.

The committee's report was submitted April 21 at a meeting of the club. It met severe criticism in debate and references to the Mayor's Private Life were expunged.

Mr. Fox has sent to the club officials a pamphlet containing the original committee report. Fox said this pamphlet was printed at his expense and that distribution was optional with club officials.

"I thought people would be interested in knowing what the club had voted to eliminate," he said.

Three sentences, which the club ordered deleted, said of Walker:

"He has joked, junketed to race tracks, sat up all night at wild parties, entertained Hollywood and ignored the city's problems. Every man, of course, has a right to live his private life as he sees fit, so far as consistent with his obligations to others, and we have no concern with Mayor Walker's private escapades except insofar as they interfere with his public duties. The Mayor of New York has no right to allow the vagaries of his private life to interfere with reasonable attention to the responsibilities of his great office."

Westerner's Plan Vetoed By Stone

Washington, May 15—(AP)—A suggestion that the wheat surplus be controlled by a plan involving a nation-wide acreage reduction agreement was vetoed today by Chairman Stone of the Federal Farm Board.

Stone, in a letter to State Senator F. J. Wilmer of Rosalia, Washington, said the problem's solution and higher prices lay in individual effort toward smaller crops. He held as impractical control measures which are contingent upon participation under contract of 75 per cent of the growers.

Wilmer, an official of the North Pacific Grain Growers Cooperative Association, had advanced a proposal entailing financial aid and moral support of the board. It encompassed a nation-wide campaign to obtain control of the next three crop surpluses and to limit acreage in 1932 and 1933 by a sign-up of at least 75 per cent of the farmers in a surplus control association with a three-year membership contract.

Five Arrested For Murder In Harlan

Harlan, Ky., May 15—(AP)—With two mine union officers and three officials of the town of Evarts in jail on murder charges, Harlan county and military authorities today believed they had removed from further activity the ringleaders who they said had been stirring up discontent among coal miners.

Col. Dan M. Carrell, in charge of Kentucky National Guardsmen brought to Harlan county to quell disorders, strengthened the military patrols at Evarts lest resentment at the arrest lead to further trouble there. This step was taken after the arrest of William H. Hightower, president of the local union at Evarts.

Hightower and the other four were indicted in connection with the slaying of four men in a gun battle last week. The others under arrest were W. B. Jones, secretary of the Evarts union; Asa Cusick, Evarts Police Chief; A. L. Benson, Assistant Chief and Joseph Cawood, Town Clerk. They are held in jail without bond.

Virginia Senator Suffered Collapse

Washington, May 15—(AP)—Senator Claude Swanson of Virginia collapsed today in the Senate office building as he was leaving a session of the War Policies Commission.

Medical Aid for the 69-year-old Senator was summoned immediately. He was stretched out on the committee table and revived before a doctor could be reached.

The hearing was adjourned at once. He was attending it as a member of the Commission.

Secretary Hurley, Chairman of the Commission, said the Senator's pulse and said it was apparently normal.

There is a legend that the python was once the only poisonous member of the snake family. In those days it was so fearful that it had but to bite a man's foot print in the ground and the man would die.

The orange tree is said to be the only one which bears fruit and flowers at the same time.

VATICAN PROTEST SPANISH RIOTING FILED WITH GOVT.

Country Is Quiet Today As Authorities Tighten Restriction

Madrid, May 15—(AP)—Papal Nuncio Federico Tedeschi conferred with President Alcala Zamora for more than an hour today and was believed to have transmitted a Vatican protest against the recent attacks on Catholic property.

He carried a bulky roll of papers and was not accompanied by his secretary, indicating a desire for a private interview. Neither would disclose the nature of their conversation. All the Vatican representative would say was that he had "called upon Alcala Zamora as a dear, personal friend."

If the protest was presented, it is believed President Alcala would inform his cabinet of the details before making it public.

Meanwhile the government was attempting to determine the truth of persistent reports that organized Communist influence was behind the depredations. Foreign Communists in Spain may be deported and efforts made to keep all foreign radicals out of the country.

Palaces Seized

Former King Alfonso's private palaces at Santander and San Sebastian, which are both in the hands of the government, were being inventoried and officials are trying to locate other personal property of his for seizure. The charges against Alfonso, involving the question as to whether to prosecute him in his absence, are still being considered.

Madrid observed another religious holiday today—that of San Isidor, patron saint of the city—and the churches were filled with worshippers. Picnickers gathered in fields near the city and the situation generally was tranquil.

Martial law still was in effect here and in Malaga, Seville, Cordoba and other cities where incursions occurred, but there apparently was no need for the military. The government was hopeful that two days without violence meant the end of the anti-religious movement.

Police Chief Fired

Carlos Borrero, Chief of Police of Madrid, was removed from office today by government order, charged with laxity in putting down the disorders. Ricardo Herraiz was named in his stead.

The Minister of Interior, Miguel Maura, placed in charge of suppression of the disorders, stated after a protracted cabinet meeting last night that the government was "highly pleased" with the resumption of order throughout Spain and that the cabinet did not consider it necessary to meet again to consider the situation until Monday.

Meeting in an unauthorized assembly last night led to arrest of four Communist by police who said they found a large quantity of arms and ammunition and many documents which indicated widespread activity by the organization.

FOREST FIRES IN WESTERN CANADA ENDANGER LIVES

Wind Storm Adding To Menace: Incendiarism Is Alleged

Regina, Sask., May 15—(UP)—Forest fires and a wind storm approaching cyclonic proportions threaten destruction and danger to lives today throughout a wide section of western Canada.

Electric power was being restored today in Regina and Saskatoon. Both cities spent the night in darkness because of damage caused to power lines by the wind storm.

Telephone and telegraph lines still were down today and only scattered reports could be obtained from the forest fire region. It was feared the flames might reach settlements and the residents would be unable to summon help.

The most serious fire was reported raging in the Riding National Park of Manitoba, between Lake Aubrey and Clearlake along Mineral creek. Every available man was called out to battle the flames.

Clouds of smoke blotted out the sun in many sections of Manitoba and Saskatchewan.

Millions of feet of lumber was menaced in northern Alberta and it was believed that only a heavy rainfall could stop the fire. Farm buildings have been destroyed.

Authorities said that many fires appeared to be of incendiary origin and indicated a belief that the blazes were set by unemployed men who hope to obtain jobs fighting the fires.

FORMER DIXON MAN IS CALLED THURSDAY MORN

Mark E. Chapman Died Suddenly At His Mendota Home

Mr. and Mrs. O. O. Burns, 306 Steel Avenue, were called to Mendota yesterday by the sudden death of Mark E. Chapman, former resident of this city. Mr. Chapman conducted a cleaning establishment on First street, this city for several months and left here about five years ago to Mendota. Following is the account of his sudden passing:

"Mark E. Chapman, 50, retired Mendota business man, died suddenly at his apartment, 1101 Burlington street, at Mendota Thursday morning at 7 o'clock. Although ill for some time, having retired from his cleaning and pressing business at Mendota about a year ago to go west in an effort to gain relief from rheumatism, his condition had not been considered critical. At 6:45 o'clock Thursday morning, he was stricken while in bed, complaining of a severe pain in his shoulder and in his back. After giving him a cup of coffee his wife called in a neighbor, John E. Bott, who attempted to aid the suffering man and who in turn called for a doctor, but Mr. Chapman passed away before a physician arrived.

An inquest was conducted by Coroner Jacob Thorsen at Mendota yesterday. The jury returning a verdict finding that death was due to angina pectoris superinduced by a rheumatic condition. The deceased for several years had been engaged in operating cleaning establishments in this vicinity. He was a member of several Masonic bodies, the Elks and the Mendota Country club. His wife was in a serious condition following the shock of her husband's sudden passing, two weeks after that of her mother. Funeral services were conducted this afternoon with burial at Mendota."

Labor Federation's Head Okays Strikes

Washington, D. C., May 25—(AP)—Strikes to prevent wage cuts if other means prove unsatisfactory have the approval of William Green, President of the American Federation of Labor.

This statement last night followed an appeal by the Federation's Executive Council that organized and unorganized labor resist "to the fullest extent" any tendency toward less pay or a lower living standard.

The council said it has found a move among some bankers and employers to reduce wages, and Green reiterated his belief that any action in that direction would be a direct breach of an agreement industrial leaders reached with President Hoover in 1929.

"We feel labor would be fully justified in resisting attempts to reduce wages even to the extent of striking," Green said.

The labor leader added that every effort would be made to cooperate in the President's program to maintain the wage scale, but that no retreats for higher pay, other than those already under way, would be inaugurated.

AIRPLANE, WITH BROKEN GEAR, IS LANDED SAFELY

Women Passengers Uninjured By Skillful Aviator

Bettis Field, McKeesport, Pa., May 15—(UP)—Three women passengers and a pilot, marooned in the air for an hour because of a broken landing gear, escaped injury when the brought to a safe landing here today.

The plane tipped over on one wing as it was brought to the ground by Pilot Charles Weibin of Pittsburgh Airways.

The passengers were Miss Elizabeth Wilson, Miss Faith Smith and a Miss Pitts, all nurses of Pittsburgh. They were en route to Buffalo to a convention.

A strut on the right side of the plane collapsed as the pilot took off for Buffalo. Another flier warned him of the damaged landing gear and he returned to the field.

Weibin circled about the field for an hour seeking an opportune place to land the plane. He was instructed to "pancake" the ship to a safe landing, if possible.

He circled for a landing attempt on the runway. The ship came down with a thud and a grind.

The plane remained upright for a moment, then stopped abruptly as it veered to one side.

Moline And Peoria Scenes Burglaries

Moline, Ill., May 15—(UP)—Burglars backed a truck up to the door of the People's Credit Store here early today, ransacked the store and drove away with \$2,400 worth of women's dresses and other apparel.

Peoria, Ill., May 15—(UP)—Two houses, two stores and a church were robbed here last night. The safe of the Jackson Purchasing Co. yielded \$500 and the Charles Haight confectionery \$60 in cash and \$50 in stolen from the J. C. Holmes merchandise. Clothing valued at \$175 residence and a radio was taken from the Mary Watts home. Silver and vestments were stolen from the altar of St. Mark's Catholic church.

A deaf and dumb person who is fairly expert at finger language can speak about 43 words a minute.

Terse Items of News Gathered in Dixon During Day

CASE CONTINUED
J. A. Isham of this city, arrested last evening by the police on a charge of intoxication was arraigned in police court Justice J. O. Shaulis this morning, the case being continued until May 23.

NEW TIME CARD
A new time card, changing the schedule of several passenger trains and providing an additional west-bound train, went into effect on the Northwestern railroad this afternoon. The corrected time card is published on page 15 of this issue of The Telegraph.

DR. MURPHY HOME
Dr. E. S. Murphy was brought home last evening from the Presbyterian hospital, Chicago, where he had been a patient for many weeks. He stood the trip home exceptionally well and, although he is still confined to his bed, his condition is reported to be excellent.

LEE CENTER CASE UP
A preliminary hearing in the quo warranto proceedings affecting the issuance of bonds for the building of a high school at Lee Center is being held before Judge Harry Edwards in the Circuit Court today.

BAR ASSOCIATION TO MEET

The annual meeting of the Bar Association of the Fifteenth Judicial Circuit, comprising Lee, Ogle, Jo Daviess, Carroll and Stephenson counties, will be held at the Dixon County Club June 18, and it is hoped to make it one of the best in the history of the association. A business meeting, 18-hole golf tournament, cards and banquet are on the program for the 200 or more lawyers expected to attend. Officers of the association are Judge William L. Leech, president; Sherwood Dixon, secretary and Robert L. Warner, treasurer.

MINOR AUTO CRASHES

A new car which Earl Watts was demonstrating to a prospective purchaser, was considerably damaged yesterday on route 89 south of Dixon near the Preston school. Mr. Watts, who was driving, did not observe another machine following and turned to the left into a driveway. The oncoming car which was driven by a Springfield salesman crashed into the side of the new demonstrator machine, considerably damaging it, but fortunately none of the occupants was injured.

Last evening two cars collided at the intersection of Peoria avenue and Third street about 7:30. Both cars were slightly damaged but the occupants were uninjured.

WEATHER

Chicago and vicinity—Generally fair and slightly warmer tonight; Saturday increasing cloudiness and rather warm, probably followed by showers and cooler in late afternoon or night; fresh southeast winds. Outlook for Sunday—Cloudy and cooler preceded by showers.

Illinois—Generally fair and somewhat warmer tonight; Saturday increasing cloudiness; somewhat warmer in south, possibly showers and cooler in extreme north portion in late afternoon or night.

Wisconsin—Increasing cloudiness, slightly warmer in east and south, showers and cooler in extreme northwest portion tonight; Saturday cloudy with cooler in afternoon, possibly showers in east and north portions.

Iowa—Increasing cloudiness, slightly warmer in extreme east portion tonight; Saturday cloudy, followed by cooler, except in extreme southeast portion.

WISCONSIN BANK ROBBER
Burlington, Wis., May 15—(UP)—Three men robbed the Meinhart State Bank of less than \$500 today and escaped towards Chicago as a police officer fired into the back of their automobile.

Many nations claim the invention of playing cards the devil's picture-books as seventeenth century Puritans styled them but it is now generally believed that they came from Asia and probably from China.

EXTRADITION OF THREE GANGSTERS IS ARGUED TODAY

Attorney Invokes An Old Statute To Keep Trio In State

BULLETIN
Springfield, Ill., May 15—(AP)—Governor Louis L. Emmerson today honored the requisition of the Governor of Nebraska for the return of Jack Britt, Thomas O'Connor and Howard Lee to Lincoln, Neb., where they are wanted for bank robbery. Sheriff Claude Hensel of Lincoln, left here immediately after the Governor had signed the extradition papers for Chicago where the three men are held.

Chicago, May 15—(AP)—Habeas corpus proceedings in behalf of three alleged bank robbers wanted in Lincoln, Neb., were postponed today pending the result of extradition hearings before Governor Emmerson at Springfield.

Writes in behalf of Thomas P. O'Connor, James Britt and Howard Lee will come before Chief Justice McGowan in Criminal Court tomorrow. William McQuillan, another of the six men arrested in East St. Louis last week, gained his freedom today when Q. J. Chott, Assistant State Attorney, said the authorities had no evidence against him.

INVOKES OLD STATUTE

Springfield, Ill., May 15—(AP)—An old statute which would penalize an Illinois officer for wrongfully turning over fugitives to another state was invoked here today by Edmund Burke, Springfield lawyer, in opposing Nebraska's requisition proceedings brought against three of the six desperadoes captured in East St. Louis last Friday.

Burke charged that the identity of the three prisoners wanted in Lincoln, Nebraska for bank robbery had not been proved, and that James Britt, Thomas O'Connor and Howard Lee would rely upon the habeas corpus petition pending in Chicago, to show they were not the men wanted.

Dewitt Billman, hearing the requisition request for Governor Emmerson, argued with Burke that the burden of proof freeing them from the charge was upon the three men, and that trial in Nebraska could be brought upon information, and did not need grand jury action.

He instanced this to support the extradition asked by Governor Bryan of Nebraska, which followed identification of the three alleged robbers by four witnesses from Lincoln.

Without indicating what recommendation he would make, Mr. Billman accompanied by Sheriff Claude Hensel of Lincoln, Nebraska and Sgt. O. W. Kemper of Illinois state police, repaired to the Executive Mansion to lay facts of the case before Governor Emmerson.

WEATHER

Chicago and vicinity—Generally fair and slightly warmer tonight; Saturday increasing cloudiness and rather warm, probably followed by showers and cooler in late afternoon or night; fresh southeast winds. Outlook for Sunday—Cloudy and cooler preceded by showers.

Illinois—Generally fair and somewhat warmer tonight; Saturday increasing cloudiness; somewhat warmer in south, possibly showers and cooler in extreme north portion in late afternoon or night.

Wisconsin—Increasing cloudiness, slightly warmer in east and south, showers and cooler in extreme northwest portion tonight; Saturday cloudy with cooler in afternoon, possibly showers in east and north portions.

Iowa—Increasing cloudiness, slightly warmer in extreme east portion tonight; Saturday cloudy, followed by cooler, except in extreme southeast portion.

WISCONSIN BANK ROBBER
Burlington, Wis., May 15—(UP)—Three men robbed the Meinhart State Bank of less than \$500 today and escaped towards Chicago as a police officer fired into the back of their automobile.

Many nations claim the invention of playing cards the devil's picture-books as seventeenth century Puritans styled them but it is now generally believed that they came from Asia and probably from China.

Curtain Rung Down

DAVID BELASCO

Master producer and veteran of the stage, who died suddenly in New York late Thursday afternoon, Belasco's rise to the foremost position in his profession was romantic in the extreme and the theatrical world mourns his death. Story of his life and death on page 6.

JUDGE LEECH IS SEEKING \$8,925 IN BACK SALARY

Files Claim In State Court Of Which He Was Once Judge

Springfield, Ill., May 15—(AP)—B. A. Davenport, Captain of Guard at Joliet penitentiary, today filed a claim for \$8,925, with the State Court of Claims for personal injuries he received last March 14 in the mess hall riot at the old prison.

Davenport alleged he was permanently injured, and he supported this contention with a sworn statement of Dr. Charles J. Carlin of Joliet, who said Davenport had injuries to the muscles of his back, left arm and hand. The doctor said a spine nerve injury in the back will be permanent and has recommended the Captain wear a brace indelibly.

Judge William L. Leech of Dixon, former Judge of the Court of Claims, today filed a claim for \$8925 for back salary. He was a member of the Court from 1922 to 1929, when he resigned, and his former two Associate Judges A. J. Clarity, Freeport, and B. F. Thomas, Fairfield, must act on his petition. The claim arises from the fact that the legislature in 1929 increased the salary from \$1500 a year to \$3600. Under the law an official's salary cannot be raised during his term and when increases are granted they do not become effective until the next term.

Iowa Murderer Is Given Commutation

Des Moines, Iowa, May 15—(AP)—Governor Dan Turner today commuted the sentence of Dr. Fred A. Woodmance to life imprisonment.

Woodmance had been sentenced from Des Moines to hang for the murder of W. F. Knapp, Des Moines trunk manufacturer, here in December, 1929.

An appeal to the Supreme Court, a plea for clemency from former Governor John Hammill and a second appeal to the Supreme Court for a rehearing proved unavailing, and the case early this week was brought to Governor Turner.

Woodmance had been sentenced to hang April 17, but at that time his appeal for a rehearing was pending before the Supreme Court and sentence was automatically stayed pending settlement of the plea and a new date was to have been set by the Governor.

Missing Girl Gave Dixon As Her Home

Chicago, May 15—(AP)—Two 18-year-old girls disappeared today and left notes giving the police plenty of territory to cover in following them.

Lucille Brown wrote that she was bound for the south, and the Derby is suspected to be the lure. But her visiting friend, Alfreda Jackson of Dixon, Ill., left a note saying she was on her way to Niagara Falls.

Dixon police have no report of a Jackson girl being missing nor is there any record of such a young lady having resided in this city. The local authorities are of the belief that the name and address left are fictitious.

Peru is the world's largest source of vanadium and is believed to be the only country in which the metal is mined for itself alone.

WAITRESS LEFT AS TRIAL BEGAN AT VALPARAISO

Her Testimony Is Considered Vital By Prosecution

Valparaiso, Ind., May 15—(UP)—One of the state's principal witnesses in Virgil Kirkland's first trial on charges of murdering Arlene Draves was declared today to have disappeared when the second trial started three and one-half weeks ago.

Prosecutor Robert C. Estil interrupted his re-presentation of testimony against the young athlete to dispatch an order to Sheriff Roy Holley of Gary for the arrest of Victoria Leonard, 38-year-old waitress.

Miss Leonard, sweetheart of a youth awaiting death in the electric chair in Illinois for the murder of a banker, vanished as the second trial of Kirkland started, without notifying the prosecution of her departure, and has not been seen since, Estil announced.

Testimony Is Vital.
He declared the state considered her testimony vital to its case against young Kirkland. Sheriff Holley was instructed to make every effort to find her quickly. The prosecution had intended to call her today.

Miss Leonard was employed in the luncheon where Kirkland and two companions appeared after the drinking party at the David Thompson home in Gary, where Arlene allegedly was attacked and beaten so severely that she died.

While Arlene was in an automobile outside the luncheon, Kirkland rejoined his companion inside, and washed blood from his hands, Miss Leonard testified at the youth's first trial. He struck his fist against the palm of his other hand with the remark, "boy, I gave it to her that time," the waitress declared.

Miss Leonard was the sweetheart of Charles Rocco, one of two young men convicted of killing Courtney Merrill, south Chicago banker, in an attempted holdup, and now awaiting electrocution.

Nicholas Christoff, owner of the restaurant where Miss Leonard worked and a witness at the first trial, repeated his testimony today, charging that Kirkland came in, spoke to Paul Barton, one of his two companions, and remarked, "I fixed her that time—now's your chance."

State Expert On Stand.
Defense counsel attempted to convince Christoff that his hearing had been faulty. Ronald Oldman, one of the attorneys, asked if Kirkland hadn't said "here's your chance." Christoff insisted the word was "chance."

Dr. E. S. Bicknell, state medical expert, said that Arlene's death occurred as the result of mistreatment she received after having suffered an extrabulbar (criminal) hemorrhage. He testified a blow from an open hand would not have caused the hemorrhage.

Prosecutor Estil announced that if Kirkland is convicted, a verdict which would carry the death penalty, he will have the charges against Kirkland's four companions changed to assault and battery with intent to commit criminal attack.

Testimony of those four, Barton, Davie Thompson, host at the drinking party, Leon Stanford and Henry Shirk, will not be used by the state, despite their offers to take the stand against Kirkland, Estil indicated.

Four Girls Flee From Reformatory

Marysville, Ohio, May 15—(UP)—Using bed sheets for a rope, four inmates of the Marysville reformatory for women lowered themselves to the ground from their second floor dormitory early today and escaped.

Police throughout central Ohio were notified. The girls were: Marie Fleisch, 22, sent up from Dayton for forgery.

Jessie Parsons, 22, Crooksville, incorrigible.

Teddie Long, 22, Middletown, incorrigible.

Anna Borden, 22, sent up from Cleveland for forgery.

The four escaped while the night watch was being changed. They had a half hour stay before their absence was discovered.

Miss Parsons and Miss Long were attired in the regulation reformatory blue. The other two wore common attire.

RECONSTRUCTION
WORLD ECONOMIC
SYSTEM NEEDED

(Continued From Page 1)

XIII. "capital cannot do without labor nor labor without capital."

Just Wage Necessary
"It is essential," the summary said, "that the proletariat be enabled gradually to obtain some of the advantages enjoyed by the proprietors."

In the present order this can only be accomplished by a just wage. Wages, therefore, must be such as to satisfy the legitimate requirements of the honest workman, not only for his person but for his family, and enable him to improve his condition within the limits above described.

All opposition between classes must cease and harmonious collaboration must be established between trade groups.

"Work is not any kind of saleable commodity but one wherein the human dignity of the workingman must always be respected."

The various trades, industries and occupations all work together towards the common good and human society will be more cordially united and harmoniously organized, the more faithfully all of them practice their own professions and follow their own vocations free and unbridled competition has been succeeded by an exaggerated concentration in the hands of a few of the whole economic power, not only of a single nation but of the entire world.

Thus the concentration of this power degenerates into tyrannical despotism.

"The only efficacious remedy for disorder is a return to the same principles of social philosophy and their prudent application to capital and labor and the relations between the two."

Socialism Modified
"Socialism, too, which has boasted it was supplying a radical remedy for this same evil, has undergone a profound modification since the days of Leo XIII. It has split into two divisions, the first of which draws all logical consequences, even the most extreme, from the principles of Socialism and has taken the name of Communism. It is well known that its teachings can in no wise be reconciled with the doctrine of the church."

"The other, which continued to be known as Socialism, has frequently notably mitigated its program. In many points it has approached now more or less close to Catholic social principles that some are asking themselves whether now the division is not one merely of name."

The Pope, however, said that this Socialism, provided it really remains Socialism even in a mitigated form, and even though in many points its teachings in themselves are comfortable to justice and are admitted by the church, has nevertheless fundamental concepts of human society so different from the true concept given us by the gospel that any agreement in doctrine remains always absolutely impossible.

"It is not possible," the Pope pronounced, "to be simultaneously a good Catholic and a true Socialist."

The Pope exhorted those "deceitful" by false hopes who swelled the ranks of Socialism to return to the church immediately and enroll themselves in the groups who, according to the principles enunciated by Leo XIII, are striving with every nerve to establish human society on a sound basis of justice and charity.

Suggested Remedies
The Pope then suggested remedies for present evils. He said the root of disorder, both in the economic and social world, lies in men fixing their eyes on earthly goods without

heeding God and things eternal. "The principal remedy, therefore," he continued, "must be applied to the root itself by raising up men's hearts and minds to God and filling them with nobler and purer aspirations. To this end, the first urgent need is for men to bend their efforts to the serious improvement of manners and the establishment of a reign of justice by which the whole social and economic order should be inspired."

"Even then, however, a wide field will always remain open for charity, which is and will ever be the only true and efficacious bond which can unite all men and make them one single family. In this renovation of society on the basis of the gospel and Christian charity, all men of good will ought to concur."

"For if a condition of affairs diametrically opposed to Christian principles would prevail, as many insist, the disaster would be terrible. Strong as she is in God's infallible promises, the church does not fear for herself but fears for so many of her sons and so many souls who would be lost."

"We must all work together, therefore, for the common good in complete harmony and discipline, each at his own post and in his own sphere seeking only the interests of God and the kingdom of Jesus Christ."

Early in his address the Pope had told his hearers: "Those gathered here are living representations of the whole world of labor and a testimony of the vigor of Jesus, and their sentiments are a source of profound gratitude, as well as to captains of industry as to all Catholic working men."

RHODE ISLAND TRIES
SALMON EXPERIMENT
Providence, R. I., (UP)—To date, about the only kind of salmon Rhode Islanders have known is that which comes in a can.

But experiments now in progress under direction of Roland P. Bowen, youthful superintendent of the Wickford fish hatchery, may prove that salmon raising is practicable in the nation's smallest state.

Approximately 1,000 baby salmon line in wooden tanks at the hatchery while Bowen observes their day-by-day development. If the salmon continue to thrive, they will be distributed later in lakes and ponds.

CACTUS' CATTLE FODDER
SUCCEEDS IN MEXICO
Juarez, Mex.—(UP)—Cactus for cattle food is the latest project of the Mexican department of agriculture.

Department bulletins received here indicate that experiments in feeding the cactus to cattle in arid regions has proved successful.

The cactus is cut from the parent stalk and the thorns removed by burning with gasoline. The department says the food value is particularly great for range cattle and that it will supplement needs for water to a large extent.

TO PERSONS INTERESTED IN THEIR EYES.
We offer a booklet on the care of the eyes. This booklet tells the person with good eyes how to keep them good. It tells the person with poor eyes how they can be made better. It is our contribution toward the CONSERVATION OF HUMAN VISION. SENT FREE ON REQUEST. Dr. Geo. McGraham, 117 First St.

President Saw Them Wed

The center of attention in a notable gathering, Gertrude Lamont daughter of the Secretary of Commerce, and Charles Esbridge Saltzman of New York are shown here after they had been married in the presence of President Hoover and other high government officials in Washington. The bridegroom is a son of Major Gen. Charles McKay Saltzman, head of the radio commission. A silver coffee service from President and Mrs. Hoover was among their wedding gifts.

Asks Republicans
To 'Discuss Crisis'

Chicago, May 15—(AP)—Inviting Republicans to discuss "the crisis" which he said "now confronts" the party, former Senator William Lorimer started a stump-tour of the state today and will make his first speech tonight at Carbondale. Following this, he said he intended to swing through each of the 25 Congressional districts.

The former Senator is interested in the election of delegates to the Republican National Convention next year, his Chicago office said.

"I have been in consultation," invitation to his meetings read, "with a number of leading Republicans as to the demoralized status of the party. It was the consensus that we have arrived at the critical point in the conduct of the affairs of the Republican party."

"It was their judgment that the party must face the crisis that now confronts it with the same courage and tenacity exemplified by its organizers, when they checked the ex-

14th Continuance
In Foster's Case

Chicago, May 15—(AP)—Judge Harry M. Fisher warned the state he would not continue the matter much longer, but agreed today to grant a 14th continuance in the trial of Frank Foster for the murder of Alfred Lingie, Chicago Tribune crime reporter.

The prosecutors asked the delay because Charles P. Rathbun, special prosecutor, is out of the city. Foster's lawyers agreed to the postponement. Foster was linked with the murder, for which Leo Brothers has been convicted, because he once owned the weapon found beside the reporter's body.

Dinner Bridge Club Entertained

Mr. and Mrs. Wayne Wolf entertained their Dinner Bridge club last evening at their home, with dinner at 6:30. Mrs. Harold Coss was awarded the favor for high honors for the ladies and Franz Gallery received the like favor for the gentlemen. The Wolf home was fragrant with lovely spring flowers, lilacs and baby's breath. The centerpiece for the dinner table was formed of these blossoms, and the tallies and favors were in harmonizing lavender, green and white.

Birthday Dinner For Mr. Pelton

Mrs. Glenn Pelton entertained with a dinner honoring her husband's birthday last evening, a happy surprise to him. The dinner was served in four courses, the decorations being in pink and green. The guests included Mr. and Mrs. C. F. Pelton, Mr. and Mrs. Earl Pelton and daughter Janet, Mr. and Mrs. Russell Hoyle and sons, Darrell and Junior and Charles Kested. Music and games were enjoyed. Mr. Pelton received nice gifts with the best wishes of all.

Jovial Club In Happy Meeting

The Jovial club met last Friday night at the home of Miss Mildred Brerton. The meeting was called to order by Raymond Crawford. A card of thanks for flowers received from one of the members, was read. Mildred Brerton was elected as mistress of ceremonies. The meeting then was turned over to the hostess and the evening was spent in playing five hundred. Miss Avis Livan and Arthur Schick won first prize; Miss Mary Etta DePuy and Paul Wells won second prize. The next meeting will be a picnic to be held at the Pines on June 10th.

Rockford Site for 1932 Convention of P. T. A.

Chicago, Ill., May 15.—(UP)—Rockford has been selected as the site for the 1932 convention of the Illinois Congress of Parent and Teachers. It was announced here today. The Board of Managers of the organization accepted an invitation tendered by Mrs. C. M. Dale, Rockford. Other invitations were received from Danville and Bloomington.

MOTHERS AND DAUGHTERS BANQUET TONIGHT

The Mothers and Daughters of the Christian church will hold their banquet this evening at 6:30 at the church. Mrs. J. W. Mullen of Troy Grove will deliver the principal address on "Tracing Motherhood." There will be toasts and music and a good attendance is desired.

Four Dixon Students To Be Honored Today

Four Dixon students at the University of Illinois were recently honored at Urbana according to word received this morning. Those honored are Geraldine Elizabeth Bennett, senior in music, 319 West Sixth street; Dean Edgar Hey, freshman, 309 East Chamberlain street; Marion Lucile Schmidt, freshman, 522 North Dement avenue, and John Bolling Lockett, senior, engineering, 620 North Galena avenue.

In honor of students who have excelled in scholarship during their educational endeavors, the University of Illinois held its seventh annual Honors Day this morning. Dixon is among the cities of the state which were represented in the list of those honored, the representatives being listed above.

Because of their superior scholarship in both the junior and senior years in the University, or because of the scholastic average for the first seven semesters of their college career is equal to or higher than that of any student chosen on the basis of superior scholarship during his junior or senior year, 31 seniors saw their names inscribed on the bronze tablet unveiled at the convocation.

Some 900 other students have won scholastic honors by meeting the requirements set forth by the University Senate, the educational governing body of the institution, and were given recognition for "superior scholarship," or "high scholarship." The honored students are classified in three ways first, those whose grades are in the upper ten per cent of each class are distinguished by "high scholarship" and are entitled to have their names printed on the Honors Day program. Second, students in the upper three per cent of the sophomore, junior and senior classes receive special mention as having manifested "superior scholarship." Third, those seniors who receive recognition for "superior scholarship" in both the junior and senior years earn the right to have their names inscribed on the bronze tablet which is unveiled during the Honors Day convocation.

Edgewood Season To Open May 20th.

The summer social season at Edgewood golf and country club will get under way Wednesday night, May 20, when the members will enjoy a dinner at 6:30 o'clock, with golf during the afternoon and cards at night. Mrs. W. B. Donaldson, president of the women's section of the club is in charge of the club, is in charge of the arrangements.

Polo Garden Club Show on May 23rd

The Polo Garden club, with Miss Loulou Thomas as chairman, will hold a tulip and early spring flower show at the Opera House Saturday, May 23. Any person in Polo and the surrounding community is invited to enter exhibits.

G. R. C. MEETS MONDAY, MAY 25TH

The monthly meeting of the G. R. C. Evangelical church which was slated for May 18 will be postponed until Monday evening, May 25. The Circle will then meet with Mrs. Ferne Krahler. All members are requested to come and bring their dollars and tell how they earned them.

CHICAGO WOMEN ENTERTAINED AT HAZELWOOD

Forest - Garden Class Chicago Woman's Club Guests

Sixty-five cultured and charming Chicago women, garden lovers, members of the Forest and Garden class of the Chicago Woman's Club, and a few guests from Dixon, were entertained Wednesday and Thursday at Hazelwood, the beautiful estate nestled along the Rock River, which is owned by Mr. and Mrs. Charles Walgreen.

A number of the guests arrived Wednesday afternoon, the remainder arriving Thursday morning. All Illinois now resembles a large garden with some vicinities more attractive than others and of course northern Illinois, and the Rock River Valley in particular, is especially beautiful just now in the spring of the year.

The trip to Dixon was made by motor and members of the Garden class detoured through the village of Lombard where the fragrant lilac garden, acquired by the late Col. W. R. Plum, was visited and enjoyed. A contributor sent to the Chicago Tribune the following letter about the park at Lombard:

"Davenport, Ia., May 8.—The lovely little park at Lombard, Ill., twenty miles west of Chicago, is at this time one of the most beautiful in the United States. Authorities have said there is no finer spring planting in the country.

"A magnificent collection of lilacs acquired over a period of sixty years by the late Col. W. R. Plum, who bequeathed his property to the village, is the outstanding feature of this delectable spot. Jens Jensen, the landscape architect, ably assisted by an enthusiastic park board, headed by William R. Plum, Col. Plum's nephew, has made of this small estate an arrangement so harmonious and so exquisite that it is an unbelievably beautiful thing.

"The week of May 10 will be the perfect time to see this and perhaps for a few days into the following week. Over two thousand lilac bushes will be in bloom, including hundreds of the best varieties, and more than ten thousand tulips are flowering with them. Hundreds of these lovely spring things are adding their beauty to this delightful place—a charming rock garden surrounds the pool—blossoming hawthorns and fruit trees have as background tall and slender cedars.

"Go down to Ken in lilac time. It is not far from London." For the good of our souls we can easily paraphrase this: Lombard is not far from Chicago. V."

From Lombard the group motored west to St. Charles and then visited two Fox River estates, the lovely rock garden at Mrs. Joseph Callender's and Fred Babson's heavily wooded grounds, through Elgin to Rockford, and thence down the now famous Blackhawk trail and over to the Pines, Lowell Park, and then Hazelwood, which was fitting climax to a drive of wonderful beauty, Hazelwood, the loveliest spot in all Rock River Valley. Dinner was then enjoyed at the Lodge in the evening.

The Forest and Garden class in its journeys seldom has more than thirty members on the tours but this time more than one hundred signified their intention to come, and Mrs. A. S. Park, chairman of the group, stated that she was forced to refuse late responses. Twenty guests were accommodated at Hazelwood, for the night and at breakfast, others registered at the Lodge at Lowell Park, the Colonial Inn, Grand Detour, and at the Nachusa Tavern in Dixon.

The Forest and Garden Class had a thoroughly enjoyable time in exploring the estate, being greeted at

every turn with something new and fascinating.

Mrs. Park stated that the guests of course, preferred to stay at Hazelwood but as only a limited number could be entertained, those who first registered for the trip, were the names chosen, which was thought by all to be a decidedly thoughtful and nice way in which to settle this little problem.

Luncheon at Hazelwood Thursday was an ideal spring day and guests at Hazelwood were awakened at dawn by the singing of the meadow lark, the cardinal and the wild canary. To some of the women, lovers of bird-life, this alone was the high point of the outing.

The morning sped all too swiftly for one just cannot help but explore when at Hazelwood or Lowell Park. The two hundred acre tract of land is a two hundred acre tract of land given to Dixon by the daughter of Gen. Charles Russell Lowell, Jr. Hazelwood adjoins Lowell Park and is of the same beautiful natural woodland, with its giant trees of many kinds, including white oak, red oak, elms, fir, and maple trees. Hazelwood is a tract of one hundred and thirty acres or more and is of much historic interest.

Hospitality Kept Luncheon was served at noon to the sixty-five guests the tables being arranged on the invitingly smooth expanse of lawn outside of the log cabin famous in history, built in 1836, and where Lincoln was at one time entertained.

Just below the bluff, on the rocky shore, the silvery waters of the Rock river could be heard lapping restlessly on the stones in the sunlight. Above the tables arched the great branches of the tall pines, meeting and forming a sun-flecked roof to the amphitheater, where the calls of the song birds sweetly echoed. Mrs. Walgreen graciously carried on the reputation for hospitality for which Hazelwood is justly noted. Under these majestic trees the great Emancipator Lincoln, was a guest. Governor Charters dispensed on handed hospitality and here the late Charles Hughes and the genial E. H. Brewster, now so ill, all entertained with warm hearted friendliness—that is the word—one visiting Hazelwood is imbued with the friendliness of the house and grounds and the sweet and natural simplicity of the surroundings—and one wants to stay—and come again.

Mrs. David Helmick and daughter, Miss Dorothy Helmick delightedly entertained at the Helmick home Wednesday evening, May 13th, the members of the Past President's club, in honor of the Department Inspector U. S. W. V., David Helmick and Mrs. Lottie Horton, the district president of the Spanish War Auxiliary. Progressive five hundred was enjoyed. Mrs. Lottie Horton was awarded the high favor and also a guest favor, and Mrs. Katherine Docter was awarded the consolation favor for the gentlemen. As it was also the first anniversary for the Past President's club the refreshments were served and enjoyed during the social hour.

hood, as this was their childhood home.

Tulips and Pansies

The Chicago women found both Hazelwood and Lowell park refuges for wild life, birds and flowers, and never have these woodlands appeared more beautiful nor to greater advantage, the recent rains bringing to life the new green in the foliage and the myriad buds which are just bursting forth into blossom.

Near the lodge are lovely beds of red and yellow tulips and fragrant purple, lavender and pink hyacinths scent the breeze with their heady fragrance. Nearby is a bed of yellow tulips, the yellow beautifully contrasted with purple pansies nodding bright faces in the same bed. Leaving the nicely cultivated grounds around the lodge the ladies on exploration bent, chose different paths through the woods and new wonders and beauties greeted them at every turn—here a sparkling, bubbling brook and then farther on gushing from the side of a cliff is a smaller brook or rill; and the cliffs are dotted thickly with wild flowers, purple and gold and blue, and tiny warblers, so delicate they seem that a breeze might waft them away. Overhead are the branches of the huge trees which have been growing for hundreds of years. Bird calls break the intense forest silence, or the sudden rustling of leaves, as a rabbit disturbed by human presence, darts forth to a safer distance.

Deeper into the woodland some of the more adventurous went, finding a deeper silence and Nature serenely smiling and aloof—and the ladies kept exploring until tired limbs gave warning and the afternoon shadows began to lengthen. Then the guests began the trek back to the cabin where they sought their hostess and after expressing their grateful appreciation for an exceptionally happy cutting, motored back to the city. Mrs. Walgreen's gracious hospitality and the delightful visit to Hazelwood will long remain a golden memory to the Forest and Garden class of the Chicago Woman's Club. They hope to again repeat the pleasure in the near future.

Entertain for Mr. Helmick and Mrs. Horton At Helmick Home

Mrs. David Helmick and daughter, Miss Dorothy Helmick delightedly entertained at the Helmick home Wednesday evening, May 13th, the members of the Past President's club, in honor of the Department Inspector U. S. W. V., David Helmick and Mrs. Lottie Horton, the district president of the Spanish War Auxiliary. Progressive five hundred was enjoyed. As it was also the first anniversary for the Past President's club the refreshments were served and enjoyed during the social hour.

VISITED THURSDAY NIGHT WITH NIECES, HERE

Mr. and Mrs. Edward Gould of New York City, accompanied by her sister, Miss Julia Newman, stopped over Thursday night with Mrs. Gould's nieces Mrs. John Smyth and Alameda Gould. They were enroute by auto to South Dakota where they will visit other relatives. They plan to go by the way of Canada on their return trip to New York.

Amboy Seniors To Present "Skidding" at High School Tonight

Tonight seniors of the Amboy township high school will present "Skidding," a three-act comedy by Aurlia Rouverol. The play is being coached by Mrs. Beatrice Mynard. "Skidding" presents the problems of the modern girl's choice between a home and a career. Marian Hardy's choice is complicated by the return home of her two married sisters and the desire of Wayne Trenton III, to whom she is engaged, that she stay out of a public career. Family is no exception. It starts skidding when the two married daughters come home, having left their husbands. A maiden aunt, a lovable old grandfather, and brother of high school age add much interest to this successful hit of Broadway.

The cast is:
Aunt Milly—Mary Eva Dyer
Andy—Edward Dunphy
Mrs. Hardy—Mary Conway
Judge James Hardy—John Fleming
Grandpa Hardy—Wendell Mangla
Estelle Hardy Campbell—Virginia Underwood
Marion Hardy—Marjorie Berryman
Wayne Trenton III—LeRoy Peltz
Mr. Stubbs—Paul Dyer
Myra Hardy Wilcox—Lillian Bachofen

Illinois Girl Hikes to New York

New York, May 15.—(AP)—Walking two miles to learn her ABC's was just preliminary training for Lucile Martin, daughter of Clarence Martin of Glasford, Ill. She was here today to be a dancer, hiking all the way from Fresno, Cal.

Eighteen, rosy-cheeked and wide-eyed, Lucile, wearing blue denim overalls and heavy shoes, went straight to the offices of a large dancing studio and declared her intention to be a dancer. She had received a reply to a query for information, none too encouraging, which stated she would be told whether she had talent or not only upon her arrival here.

"It was a reply, though, and worth taking a chance on," said Lucile. "I want to be a dancer and I'm going to be one. I don't like any other kind of work. And they say I'm going to make good, otherwise I'd have to start walking back home again."

Lucile had hitch-hiked to California last July to see a brother in the Navy. New York, to her was not a much longer jaunt. Having but \$18 she started out in January working her way enroute as a waitress, nurse maid and typist. A great many times she got a "lift" from passing motorists.

The only bad luck she had, she said, was getting caught in several

Smartest Fashions Of Two Continents Color International Meet At Capital

By SUE McNAMARA
Washington, (AP)—Conversing in a dozen different languages, women of many foreign countries who accompanied their husbands to the International Chamber of Commerce congress displayed the smartest costumes of two continents. Special emphasis was given to becoming costumes for older women. The woman with grey hair was in the ascendency, for the women were mostly those whose husbands head big industrial or commercial firms at home. While the men attended business meetings, the women were whisked from one elaborate tea table to another and on all sorts of sight-seeing excursions. India and Turkey seemed the only countries not represented by wives, sisters or daughters. Mrs. C. Peterson of Danzig attended a luncheon at the Mayflower hotel in a smart black-and-white flowered dress with black-and-white hat to match.

Harold Celebrated Birthday Today

Harold, five-year-old son of Mr. and Mrs. Harry Johnson had a birthday party today at his home, entertaining twelve little friends with games and a tempting birthday luncheon, a white cake with candles being the center of attraction. The children had a very happy afternoon and left Harold many nice gifts with their best wishes.

RENEFIC CARD PARTY IN FRANKLIN GROVE

There will be a benefit card party by the O. E. S. Monday afternoon in their hall in Franklin Grove. There will be bridge and five hundred. Refreshments will be served. A small admission will be charged at the door.

PRACTICAL CLUB TO MEET WEDNESDAY

The Practical club will meet Wednesday afternoon with Mrs. Frank Wilson, Route 26.

- Develop Dixon as an Industrial and Trading Center.

JUSTICE FOR THE COP.

Americans generally do not have a very good opinion of their police.

Part of this is due to the prevalence of crime in the large cities, which has led to a fairly widespread belief—sometimes justified and sometimes not—that the police are inefficient and corrupt, to cope with gang leaders even if they wished to.

Part of it, too, probably comes from the fact that the ordinary citizen's chief contact with the police comes through the traffic officer. This functionary is usually overworked and harassed, and his temper, quite naturally, tends to be a short one. Mr. Average American, then, ruffled at getting scolded sharply for violating some traffic rule, judges the whole force by the officer who has rebuked him, and sets all policemen down as rude and unmannerly persons.

However, this isn't quite the whole story; and it is worth remembering that the ordinary cop is ready and willing to risk his life against long odds for the protection of the public. He does it repeatedly, and gets little credit for it.

There is, for instance, Patrolman Ernest Staab of Cleveland, who suffers from intermittent spells of sickness and labors against a curse of ill health that may eventually cut short his life because of his self-sacrifice and devotion to duty at the terrible Cleveland Clinic fire two years ago.

Newspaper readers will remember that fire. The hospital building filled with deadly gas, and more than 100 people lost their lives. Patrolman Staab was one of the first officers to reach the scene. Again and again he went into the gas-filled building. Before he himself finally collapsed, he had saved 21 lives.

For weeks Staab was at the point of death. Finally he recovered—partially. He still has spells of painful sickness. He still does not know when one of these spells is going to carry him off. But he simply says, "It was my job," and asks for no sympathy.

There is an example of the way the "ordinary cop" rises to the emergency.

There are plenty more like him. There is, for instance, Patrolman Charles E. Ripley—promoted, now, to a sergeant—of Dover, N. J., who by his nerve and quickness was able to arrest James Nannery, a dangerous thug for whom police of half a dozen states were hunting.

Staab and Ripley are not uncommon characters. They are fairly representative of the average policeman throughout the United States. They seldom get much credit. The ordinary citizen finds it easy to criticize them. But they are there when the emergency arises.

THOSE ACHES IN THE HEAD.

If scientists are right in their deductions that headaches are a sign of brains there is reason to rejoice among those who do not belong to the intelligentsia. Investigators into this ailment at the research hospital of the University of Illinois are reaching the opinion that disease is peculiar to the more intellectual. These scientists, however, are suggesting that most cases of headache can be remedied by a simple regulation of the method of living.

At the same time, these experts say that those who are subject to pains in the head are descended from an intellectual faction. For this disease is hereditary.

Another theory which has been advanced by many, states that those who are tall are descended from kingly lines, for the tall and strong held the high places of government in olden times.

People who go to great length to prove the superiority of their ancestry have always been a pain in the neck. Now they shall probably become an ache in the head.

ONE OF THE THINGS THAT WAS WRONG.

In the latter part of 1929, bricklayers in the metropolitan district of New York were receiving \$1.87½ an hour wage and were laying 250 to 300 face brick or 700 common brick a day. Now they are receiving \$1.92½ an hour, but are laying 400 to 500 face brick and 1200 to 1400 common brick a day, an increase of approximately 80 percent in efficiency.

It takes only half an eye to see that one of the things hindering business in this country has been the New York bricklayers. One might comment at length on the point of that story, but the figures speak louder than words.

A New York woman suggests a "traffic dance" as a means of avoiding death and injury. The only trouble is that it is liable to make a "hit" with the motorists.

A French girl is reported to have laughed three hours without stopping. Probably overheard an American tourist giving directions to a cab driver.

These writers who begin sentences with a small letter seem to be the strongest advocates of capital punishment.

Probable lament this summer: "It's a great life if you don't wreck one."

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

While walking around the Chinese street one Tiny said, "That place is neat." He pointed to a little shop. A man stood in the door. The wee clowny said, "Can we come in?" The man just spread a friendly grin, and then replied, "Of course you can. That's what this place is for."

"The folks around here trade with me. I sell them rice and lots of tea. Just peek into my windows. You can see what is for sale. Of course you do not need to buy. I welcome visitors passing by. The goods are fresh. I never keep a thing until it's stale."

And so the Tinies walked right in. It was the queerest place they'd been. On top of shelves was Chinese food, all packed up safe and sound. A showcase stood upon the floor. Inside of it they saw lots more. 'Twas really fun to watch them as the Tinies looked around.

The Travel Man said, "I will buy some Chinese nuts for you to try. The shell is hard, but with your teeth just bite through to the meat." The Tinymites were thrilled at this. Said Clowny, "Not a thing we will miss." And as he tasted a nut, he added, "My, they're sweet."

In just a little while they went outside to walk around, intent on seeing other things that they had never seen before. Soon Scouty cried, "Look down the street. A camel we are going to meet. And look! His back is loaded down. I wonder what that's for."

"Why, gee, I thought you knew, of course, the camel's used just like a horse in China," said the Travel Man. "You'll see them everywhere. They carry lots because they are strong. Just watch that fellow plod along." Just then the camel snorted and it gave the bunch a scare.

(The Tinymites have a camel ride in the next story.)

TODAY IS THE ANNIVERSARY

THE TRAINING CAMPS

On May 15, 1917, sixteen camps for the training of officers were opened in various parts of the United States, the numbers of trainees in attendance being 40,000.

The camps were scattered throughout the country so as to afford the opportunity of entrance and training with the least inconvenience and expense of travel. Officers previously commissioned in the reserve corps were required to attend the camps, and, in addition, about 30,000 selected candidates were accepted from among the much greater number who applied for admission.

These camps were organized and conducted under the supervision of department commanders; applicants

were required to state their qualifications and a rough apportionment was attempted among the candidates to the several states.

At the conclusion of the camp, 27,341 officers were commissioned and directed to report at the places selected for the training of the new army. By this process the national army need for officers was satisfied and the roster of the regular army filled.

MAMMY PREFERS BIBLICAL NAMES FOR EBONY TWINS

Thomasville, Ga.—(UP)—"What names are you thinking of giving them?" a lady asked the Negro mother of two-day old twins.

"Done already named 'em," came the reply.

"One's named Apostle Paul, and the other is Epistle Peter."

One of the exhibits of the Louisiana Purchase Exhibition, held at St. Louis in 1904, was a loaf of bread weighing 100 pounds.

QUOTATIONS

I have found that Broadway and Hollywood hold nothing but the fleshpots.

—Dorothy Knapp, "the most beautiful girl in the world."

A dictator produces better headlines than a democracy, but in the rest of the story the advantage is the other way.

I am proud of it.

—Serge Rachmaninoff, Russian composer whose works have been banned by Russia.

Content—the absolute resignation to things as they are—is not a normal state of mind. It is fatalistic. There is a virtue in making the best of things, but that is cheerful acceptance.

—Mary Roberts Rinehart.

Economic advancement is not necessarily the foundation of moral and spiritual advancement, but it can be made so if we so conduct our institutions that prosperity shall be diffused among all our citizens.

—President Hoover.

Health is a matter of backbone and it's more important to a man than jawbone.

—Dr. A. J. Morrell, Westminster, Md.

A THOUGHT FOR TODAY

And be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephesians 4:32.

There never was any heart truly great and generous that was not also tender and compassionate.—South.

Did you ever stop to think

EDSON R. WAITE
Shawnee, Okla.

THAT it is very important to think about the needs of the home city and what it takes to make it a bigger, better and busier city.

It won't even start on the road of better business until plans are first made.

There are many ways of improving business in every city.

There are many people with many different ideas. They could not all be put into effect at one time. Some of them would not be practical.

The best way to get a start is through the right kind of co-operation.

People co-operating together can decide on the ideas that will be of the most benefit to all. When that is done, plan together how to con-

vert these ideas into an accomplished fact, then, with the united effort of all, DO IT!

Investigation will show that the cities that are moving ahead are operating in this way.

Growing cities attract new industries, investors, home-seekers, and many new business enterprises.

Come to us for Job Printing. B. F. Shaw Printing Co. Printers for 80 years.

Chicago, May 6—(AP)—All gentlemen do not prefer blondes.

Franklin Adkins is one of those gentlemen, his wife charged in a bill for divorce on file in Superior Court today. She alleged that Adkins didn't notice that she was a blonde until the day they were married, and that he complained so bitterly about it that she went to a hair dyer and had herself changed into a brunette.

"It won't do," she quoted him as saying.

"You are not the genuine article: You are still a blonde at heart. Once a blonde, always wrong."

Two months later they separated.

Oklahoma's obtain \$1,000,000,000 yearly in new wealth from the state's natural resources, the state geological survey estimates.

BOWLING NEWS

BY ED WORLEY

All bowlers receiving a handicap in the elimination tournament won their match this week, with the exception of one; in which R. Harridge defeated H. Slothower 582 to 446. D. Senneff won from R. Fitzsimmons 548 to 473; E. Hess collected 543 pins to Knese 505. John Lange beat Ed Detweiler 622 to 571. L. Poole was the victor over F. Cleary 575 to 552 and G. Beier won from E. Worley 593 to 579.

The schedule for the coming week will be as follows:

Tuesday, May 19
J. Lange vs E. Hess, handicap 36
L. Poole vs G. Beier, handicap 41

Wednesday, May 20
D. Senneff vs R. Harridge, handicap 12

Scores and Handicaps

L. Poole	205	207	158	570	5 575

Baseball Gossip

By HUGH S. FULLERTON, JR.

Associated Press Sports Writer
The Washington Senators had to go west to hit their stride in the American League pennant campaign. Playing against their strong eastern rivals, the Senators could get no better than an even break and were in fifth place when they set out for their inter-sectional battles.

In the west Washington has won four games out of five—only a fair performance compared to the clean sweeps scored so far by the Philadelphia Athletics and New York Yankees—and has climbed up to third place. But Washington has been pitted against the two strongest western clubs, Cleveland and Detroit, while the Yanks and A's have been knocking over St. Louis and Chicago. The fourth victory yesterday, a 5-4 triumph over Cleveland, did not alter the standing, but it did give Washington the league leading pitcher, Sad Samuel Jones won his third straight game, allowing only eight hits.

Burnett's homer in the second inning brought the only Cleveland scores until Jones eased up a bit at the finish. With the tying run on base in the ninth, Jones bore down to retire the last man.

The Athletics won their sixth straight game yesterday, downing Chicago 5-2 on a fine pitching performance by Rube Walberg. The win enabled them to retain their lead of a few points over the Yanks.

Big Charley Ruffing added another great pitching performance to the list of this year's mound achievements and Lou Gehrig clouted his fifth and sixth homers of the year to head the Yankee attack that brought a 14 to 2 victory over St. Louis.

Walberg won his fifth game for the champions against a loss.

Al Simmons ended a possible pitching duel when he hit his sixth homer of the year in the fifth to join Lou Gehrig at the top of the American League list and ruin the game for Vic Frasier. It was the fourth triumph for Ruffing, who also has lost one, but it looked like a no-hit until the eighth when Lou Storti touched him for a single.

The Boston Red Sox, who have climbed from last place to sixth in their western tour, had only one good inning against Detroit but that was enough for a 4 to 3 victory. The Sox got to Waite Hoyt for five hits and four runs in the sixth.

Five National League games scheduled for yesterday were a complete loss as rain again swept the eastern sector, bringing the year's total of postponements up to 33 for the old league.

watching his Cardinals in 18 games this season, Manager Gabby Street has decided, "they've taken just about all the rabbit out of the ball."

"I believe you're going to see a change in baseball strategy from now on," Street commented today. "Instead of waiting until the seventh inning, I believe the Cardinals will start playing for one run as early as the fifth inning. I withheld my decision as to whether there had been an important change in the liveliness of the ball until we played in Philadelphia, and that game convinced me they've taken just about all the rabbit out of the ball."

"Look at the low scores and look at the low batting averages. Balls were hit right on the nose in that Philadelphia game the other day and last year the same hits would have crashed against the right field wall. But all day long only two carried as far as the fence and one of them went over."

Street said "smart hitters" will start choking up on the bat, "because those who just whale away at the fences are going to hit a lot of harmless flies."

YESTERDAY'S STARS

By Associated Press

Lou Gehrig and Charlie Ruffing, Yankees—Former drove in six runs with two home runs and single; latter held Browns to four hits, all of them in eighth and ninth innings.

Rube Walberg, Athletics—Allowed White Sox seven scattered hits and beat them, 5 to 2.

Wilcy Moore, Red Sox—Gave Tigers only three hits in four innings in relief role to protect Red Sox lead.

Sad Sam Jones, Senators—Pitched Washington to a 5-4 victory over Indians and drove in two runs himself.

MAJOR LEAGUE LEADERS

Following averages compiled by United Press include games played Thursday, May 14th:

Leading Hitters

Player & Club	G	A	B	R	H	Pct.
Ruth, Yankees	15	53	19	22	415	
Simmons, Athletics	20	77	16	31	403	
Fothergill, W. Sox	15	61	6	24	393	
Alexander, Tigers	27	104	14	40	385	
Ponessa, Indians	24	100	21	38	360	

Home Runs

WRESTLING

New York—Herb Freeman, 218, New York, threw Reito Gardini, 200, Italy 38:19; Sergei Kalmikoff, 260, Russia, threw August Bankoff, 210, Belgium, 29:00; Gino Garibaldi, 209, Italy, threw Tommy Draak, 208, Greenwood Lake, N. J., 34:31.

Boston—Gus Sonnenberg, 210, Boston defeated George Zarynow, 195, Russia two out of three falls (Zarynow 36:41; Sonnenberg 14:07 and 12:11). Nick Lutze, 220, California, threw Leo Hyatt, 215, Dover, N. H., 21:00; Jim Browning, St. Louis, threw Abe Kaplan, New York, 16:00.

Toronto, Ont.—Don George, Buffalo, defeated Bibber McCoy, two falls out of three.

Kansas City—Ed "Strangler" Lewis, Los Angeles, threw Babe Luther, Broken Bow, eb. (two falls); "Jumping" Joe Cavoli Three Oaks, Mich., threw Count Ernak Harkavsky, Hollywood, Cal., (one fall).

Vancouver, B. C.—Joe Malceqez, Utica, N. Y., threw Stanley Pinta, Ravenna, Neb., (one fall). Doc Meyers, Chicago, and Bob Kruse, Portland, Ore., drew (one fall each).

FIGHTS

Canton O.—Freddy Fitzgerald, Youngstown, outpointed Eddie Anderson, Chicago (10), newspaper decision.

Omaha, Neb.—George Manley, Denver, outpointed Tiger Jack Payne, Omaha (10).

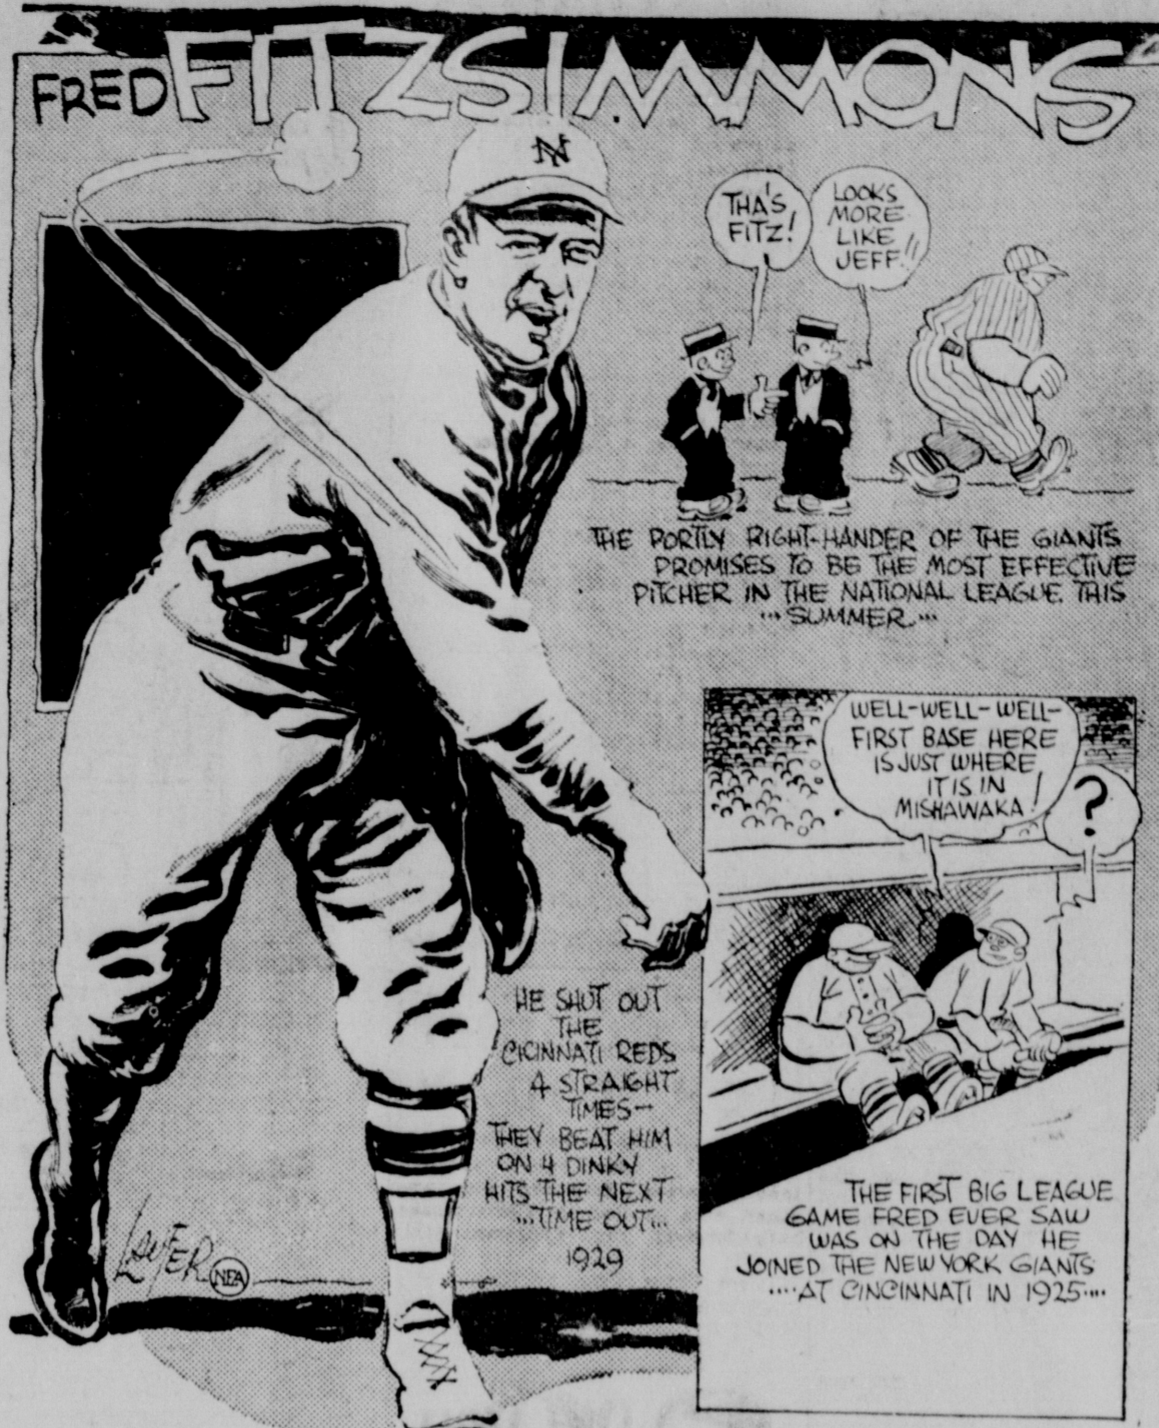

SPORT BRIEFS

Philadelphia, Pa. May 15—(UP)—William T. Tilden of Philadelphia, considered one of the greatest tennis players of all time, has added another championship to his long list of titles.

Tilden won the mythical professional tennis title last night when he defeated Vincent Richards of New York, 6-4, 5-7, 7-5, 6-2. It was Big Bill's third consecutive victory in his series of five matches against the

BRUSHING UP SPORTS

By Laufer

New York star for the world's singles crown.

Although Tilden already has clinched the title the two stars will meet in the fourth match of their series at Chicago Saturday night.

Milwaukee, May 15—(UP)—Nineteen Marquette University athletes will compete against Bradley Tech in a dual track and field meet at Peoria Saturday.

Coach Conrad M. Jennings has selected the following men to make the trip: Jack and Pete Walter, Tierney, Sink, Windau, Romani, Rohan, Nevins, Sweeney, Schmidt, Kores, George Tews, Weiss, St. Peter, Hames, Jeitnek, Lundson, and Buretta.

Chicago, May 15—(UP)—The proposed Chicago \$10,000 open golf tournament will be postponed for at least a year because "promotion during these times of depression might be subject to criticism," it was announced today by the sponsors.

Byron Field, president of the Junior Association of Commerce which had drawn plans for the event, said that although plans for the meet virtually were complete, it was decided to abandon them for this year. Every effort will be made to hold the tournament in 1932, Field said.

Bloomington, Ind., May 15—(UP)—James E. Hatfield, Washington, Indiana University senior and one of the Big Ten's star hurdlers today was awarded the school's Big Ten medal for exceptional ability in athletics and scholarship. Last year Hatfield was a member of the United States' shuttle relay team that defeated the British Empire team in a met at Chicago.

Chicago, May 15—(UP)—Roy Henshaw, lefthanded sophomore who has pitched all of Chicago University's four victories this season, will lead the Maroons tomorrow against Minnesota in a doubleheader. Walfrid Mattison, Gopher pitching ace, will take the mound for the westerners. Either Will Urban or Art Cahill will pitch the second game for Chicago and Earl Evans is expected to pitch for Minnesota.

Chicago, May 15—(UP)—Construction has been started on Chicago University's new field house, which will be twice the size of Bartlett gymnasium, and it is expected the building

cancelled the title recognition. Meanwhile the National Boxing association recognized Schmeling, and his champion status has become generally accepted—outside the city and state in which he gained this recognition under circumstances distinctly dubious.

LAUREL OR RASPBERRIES?
Now the solemn solons of New York, not content with their last venture in champion-making, have decided to bestow the wreath on the Camera Sharkey winner in June, hopeful that it will consist of laurel instead of raspberries.

Apparently the solons have the championship habit and cannot shake it off. As a result of their subtle handiwork the four leading heavyweight contenders will figure in the championship scramble early in the summer. Some order may come out of chaos if the surviving pair can be brought together in September.

Jack Sharkey, at any rate, has his annual chance to go somewhere in the heavyweight division, cry out loud or something.

The big Boston sailor, for several years possessing the physical equipment calculated to lift him to the place vacated by Tunney, has fallen short so often that the confidence of even his most persistent followers has been a trifle shaken.

He lost his big opportunity against Dempsey in 1927, dropped the chance to be Tunney's final opponent in 1928, rallied in 1929 with victories over Stripling and Loughran, but suffered from wildness against Scott and Schmeling in 1930.

There is still an opportunity for Sharkey to break through if he can locate the jaw of Primo Camera at Ebbets Field in June. This may not be as easy as he may figure. Camera's fighting ability still is a mysterious quantity, but his bulk and speed are factors sufficient to make him an extremely difficult opponent.

STANFORD VS. PENNSYLVANIA
The best argument for adding a one-mile relay to the Eastern Intercollegiate track and field championships at Philadelphia, May 29-30, is that it would settle the question of supremacy between the crack teams of Stanford and Penn.

The I. C. A. A. A. has considered putting a relay on the program, but decided against it this year; so there will be no opportunity to settle the argument unless a post-season match can be arranged between the Stanford quartet that recently set a new American record of 3:14.3 and the Penn four that set a world's indoor mark of 3:17.8 and ran the distance in the rain at the Penn Relays in 3:18.

FINANCIER SUICIDES

Bethlehem, Pa., May 4—(UP)—A maid found the body of J. George Lehman, 55, owner of the Bethlehem Glass Works, in the library of his palatial home here today with a bullet wound in his head. Police said Lehman had fired the bullet, but friends and relatives could give no motive for suicide.

Lehman was a director and vice president of the Wilbur Trust Company, a director of the Lehigh Valley National Bank and also associated in a business way with officials of the Bethlehem Steel Company.

SPORT SLANTS

By ALAN GOULD

Any way it's figured, the joke may again be on the solemn solons of the New York State Athletic Commission, sometimes known as the Three Dukes of the Cauliflower Kingdom.

It was a nice, generous act by the commission that installed Max Schmeling, the likeable German boy, as "world's heavyweight champion" last summer, following Maxie's victory over Jack Sharkey on a foul.

Subsequently the commissioners regretted this generosity, became annoyed at Schmeling's refusal to meet Sharkey in a return bout, and

NEW BALL CUTS HIGH AVERAGES OF THE HITTERS

Reduction Is Most Marked
In National League;
Ball's Heavier

By DIXON STEWART

United Press Staff Correspondent
New York, May 15—(UP)—With major league batting averages showing a general decrease since the introduction of the new "dead" ball, players are urging a return to the "rabbit" ball used during recent seasons.

Pitchers have made no complaints. In fact they appear unanimous in support of the present ball, but the athletes whose salaries depend upon their batting averages contend that changes in the ball are responsible for the current hitting slump.

The base hit famine has hit the National League harder than the American League and most of the agitation against the new ball is in the senior organization. The American League ball was unchanged this season except for the raising of the stitching, which the National League adopted a thicker cover as well as heavier stitching. National League sluggers contend that the heavy cover has muffled hitting, even more than the raised seams, which aid pitchers in baffling the batters by providing an improved grip.

No Action Near

No official action on the ball can be taken before the mid-season league meetings late in June. League officials do not believe the new ball has been thoroughly tested and declare another month of play is necessary to determine whether the batting slump is due primarily to the new ball or to improved pitching.

It is not likely that any change will be made—particularly in view of the fact that pitching duels and low hit games are proving popular with the fans—but there is a possibility that there will be agitation for standardizations. The Brooklyn club, chief victim of the current hitting slump, is reported as ready to propose a return to the thin cover used in the American League. There also is a possibility that the American League will adopt the heavy cover in use by the National Circuit.

Averages Lower

Batting averages in both leagues are much lower than in previous seasons, although the American League slump is not as pronounced as the National and is accounted for partially by the elimination of the sacrifice fly.

In the National League many recognized stars are proving of little offensive value to their teams. Bill Terry, New York Giants first baseman, who won 1930 batting honors with a percentage of .401 is hitting only .262 to date.

Hack Wilson and Gabby Hartnett, who are counted upon to supply the punch for the Chicago Cubs both are well below the .300 mark. Frankie Frisch of the St. Louis Cards has hit only .230 to date, and his teammate, Taylor Douthit, has been

benched because of weak batting. Rogers Hornsby of the Cubs and Jim Bottomley of the Cards are among the few stars who have not been affected by the change in ball. Hornsby has been slugging at a .364 clip and driving his team to victory. Bottomley, who was slated for transfer from St. Louis because of his 1930 world series "bust," now leads the Cards with a batting average of .375, and has regained his popularity with St. Louis fans.

BLACK MAGIC TO FLOURISH
AT COLUMBUS CONVENTION
Columbus, O.—(UP)—If there are any new creations in the world of deception they will be disclosed here on June 2, 3, 4 and 5, at the annual convention of the International Brotherhood of Magicians.

The convention will bring together professional magicians from all over the world. According to those in charge of arrangements for the gathering of "black artists," there will be delegates from Berlin, Paris, London, Sidney, Australia, and hundreds of cities of the United States and Canada.

The Brotherhood will pay tribute to Howard Thurston, internationally famous magician, a native of Columbus.

There will be daily free shows at theatres and in the yards of the Ohio state house during the convention. There also will be a free performance for Ohio's crippled children.

W. W. Durbin, of Kenton, O., is president.

HIG STILL RAIDED
Joliet, Ill., May 14—(UP)—A liquor plant valued at more than \$50,000 was raided today by officials under the direction of Sheriff Oliver Flint, who arrested the alleged operator of the plant.

The plant, said to have been the property of Lockport beer runners, was located in a barn on a farm 15 miles northeast of this city in it were found a still, a large boiler, and 500 sacks of sugar.

H. A. Winske, the only person found on the premises was arrested. He told officers that he lived on the farm.

INQUEST CONTINUED.
Chicago, May 14—(AP)—Coroner Herman N. Bundesen today continued indefinitely the inquest over the charred body of a man believed to have been Mike "De Pike" Heitler, found in the ruins of a shed near Otis Lake two weeks ago, in order to allow police time for further investigation. Heitler, a vice operator estranged from allies of Al Capone, has not been seen since the killing. An automobile, driven by him on that night, was found 20 miles from the spot. It had been partly burned.

TWO FALL TO DEATH
New York, May 14—(AP)—George Bowman, of Rochester, N. Y., was found dead today in an area way seven floors below the window of the room he occupied in the Commodore Hotel. He was 70 years old. Police reports did not say whether death was accidental.

William Abe, 45 years old, was killed when he fell or jumped from a fire tower on the nineteenth floor of a building at Twenty-sixth street and Broadway early today.

WORLD OF STAGE
MOURNS WIZARD,
DAVID BELASCO

The Master Producer Was
Stricken Suddenly
Late Thursday

(Picture on Page One)
New York, May 15—(AP)—The theatrical world was in mourning today for David Belasco, grand old man of the stage, creator of stars, wizard as director and producer.
In his 77th year, he died of heart disease yesterday after a long illness devoted to the stage. "I shall retire when I am carried feet first out of the theatre," he said on his 70th birthday. He never did retire and there was a dramatic touch to his death. "I am fighting for my life," he said as his daughter, Reina, Mrs. Morris Gest, went to his bedside, in the Hotel Gladstone, a moment before the end.
True to the Belasco tradition, his latest play "Tonight or Never" went on as usual last night.

Mr. Belasco was stricken but a few hours before his death. He had apparently recovered from a siege of pneumonia which had kept him abed several months last winter. Earlier this week he had reserved eight tickets for the fights tonight in Madison Square Garden.

Sunday he went motoring. Tuesday night he felt ill, but refused to let his nurse summon a doctor. At 8 a. m. yesterday the doctor was called and remained with the stage master until the end at 4:15 p. m.

Hundreds of messages of condolence reached his daughter.
On the stage first as a child, Belasco had played 200 parts while still a young man. At his death he had produced some 400 plays, of which he had written 150.

Among his outstanding successes were: "A Grand Army Man," "The Eastway," "Marie Odile," "The Music Master," "The Heart of Wintonah," "Tiger Rose," "Tiger, Tiger," "Deburau," "The Gold Diggers," "Kiki," and "Lulu Belle." He starred, among others, Frances Starr, Mary Pickford (who changed her name from Gladys Smith), Ina Claire, Lenore Ulrich, Fay Bainter and David Warfield.

Beside his daughter Mr. Belasco leaves three brothers, Edward, Walter and Solomon, all of Los Angeles. Another daughter, Mrs. William Elliott, died 18 years ago.

He will be buried Sunday in the Linden Hills, (N. J.) cemetery by the side of his wife, Cecelia Loversh, whom he married in San Francisco. Services will be conducted in Central Synagogue with Rabbi Jonah B. Wise officiating.

No life has been more truly devoted to the advancement of the American theatre than that of David Belasco.

His inherent love for his work, and his infinite capacity for painstaking every detail made him one of the most successful men in the theatrical world.

To achieve that distinction, however, was not an easy task and involved on the part of Mr. Belasco active participation in every phase of work connected with the stage. So devoted was he to the theatre that not once during his long career did he ever consider retiring.

That subject brought a vigorous outburst from him when it was mentioned on the occasion of his 75th birthday anniversary.

"I shall retire when I am carried feet first out of the theatre," he said. "I expect to be working hard and producing plays when those who say that I should retire have passed away. Why, I've been on and off the stage ever since I was eight months old. My first appearance was with my mother in a mother-and-infant part."

Mr. Belasco's major honors came from the artistic details with which his dramatic productions were embellished. Constantly, he was in pursuit of every item that would make his plays realistic to the highest degree, especially from the scenic viewpoint. The attractions with which he was connected as producer, author, collaborator, adapter, or manager, numbered more than 400 and included many successes of this and previous generations of theatre-goers.

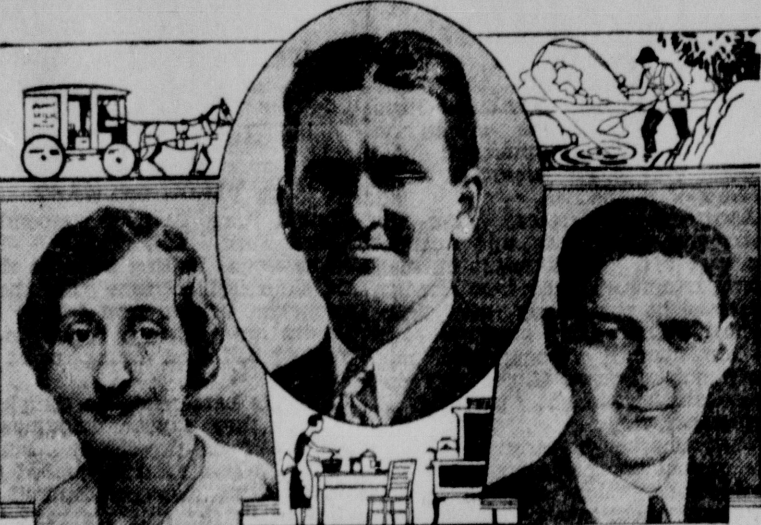

While building his reputation along those lines, Mr. Belasco at the same time was equally successful as a leader of a school of realistic acting, many of whose pupils became stars on their own account. Among them were Mrs. Leslie Carter, David Warfield, Blanche Bates, Lillian Gish, Milton Sills, Ina Claire and Jeanne Eagels.

Born in Frisco
Of ancient Portuguese extraction, Mr. Belasco was born at San Francisco, July 25, 1854. In his later life there was a question as to the year of his birth, nearly all biographical works giving the year 1859. It was not that Belasco was sensitive about his age—he never paid attention to it—but was rather proud of his ability to continue at the pace he followed in his work for one of his years.

On each recurring anniversary of his birth, he would joyfully announce upon entering his office: "Today I am 21," an indication of how old he felt. A few weeks before that anniversary in 1929, some old friends insisted that he clear up the matter and Belasco asked his sister. She said he would be 75 on July 25 of that year.

The early ancestors of Mr. Belasco were forced to flee to England before the Moors. His father was among those who later went to Vancouver, B. C., where he accumulated some wealth and was elected mayor. Later when he met with reverses, he moved his family to San Francisco, about the time of the California gold rush and that city became the birthplace of David. The latter was educated at Lincoln College, California, and about

Milkman, Housewife, Sportsman,
Winners in \$50,000 Contest

Top, James Thomas Sharkey, first prize winner; lower left, Mrs. Walter Sweet, winner of second prize; lower right, Julius M. Nolte, winner of third prize.

Pictures show the three major prize winners in the Camel cigarette contest. James Thomas Sharkey, 32, a milkman in Boston, was awarded first prize of \$25,000; Mrs. Walter Sweet, mother of three children and wife of a Marine Corps captain stationed at the Brooklyn (N. Y.) Navy Yard, won second prize of \$10,000, and Julius M. Nolte, real estate dealer, and former secretary of the Duluth Commercial Club, received the third prize of \$5,000. In addition, five prizes of \$1,000 each, five prizes of \$500 each and twenty-five prizes of \$100 each were awarded.

The three fortunate prize winners will go to Winston-Salem, N. C., where Camel cigarettes are manufactured, to receive their checks.

the time he was graduated married Cecelia Loversh. Mrs. Belasco died several years ago. Their daughter, Reina Victoria, was married to Morris Gest, the theatrical producer in 1911.

Talent Revealed Early
Mr. Belasco's predilection for the theatre asserted itself when he was only 14 years old. At that age he became author of his first play, "Jim Black, or the Regulator's Revenge." He fitted up an empty closet at his home for a studio and shortly after obtained his first real theatrical job—call boy at the Baldwin Theatre, San Francisco.

He eventually became stage manager at that theatre and later held similar positions at the Grand Opera House and the Metropolitan Theatre in San Francisco.

During those years, Mr. Belasco came in contact with such stars as Edwin Booth, John McCullough, E. A. Sothern, Edwin Adams, Adelaide Nielson and others. Meanwhile, he had been spending all his spare time dramatizing novels, adapting foreign plays and doing original work. From his position as stage manager, he went with Dion Boucicault, whom he served as private secretary for a time.

The play, "La Belle Russe" written by Mr. Belasco in 1879, gained recognition for him in New York, where it was successfully produced at Wallack's Theatre. Three years later he was induced to go to New York by the Mallory brothers, who engaged him as stage manager and stock dramatist for their Madison Square Theatre. There he began his real climb to fame, continued it as stage manager for Daniel Frohman at the Old Lyceum Theatre and eventually struck out to attain his greatest achievements on his own account.

One of his early successes was "May Blossom" of which he was author and which was produced in 1884. Three years later he presented E. H. Sothern in "Lord Chumley," of which Mr. Belasco and Henry C. DeMille were co-authors. Mrs. Leslie Carter reached stardom in his "The Heart of Maryland," and continued her success in the Belasco version of "Zara." He collaborated with John Luther Long in "Madame Butterfly" and "The Darling of the Gods," the latter being the vehicle which brought fame to Blanche Bates. It was in 1904 that Mr. Belasco presented David Warfield in "The Music Master," which established a record for continuous performances to that time.

Other Belasco plays which are still familiar to theatre patrons included "Andrea," a classical tragedy of the Byzantine period; "The Girl of the Golden West," "Rose of the Rancho," "The Grand Army Man," and "The Return of Peter Grimm." In recent years the successes which Mr. Belasco staged included: Ina Claire in "The Gold Diggers," Fay Bainter in "The Other Rose," Robert Loraine in "Tiger Cats," Lenore Ulrich in "The Harem," Holbrook Blinn and Judith Anderson in "The Dove," Willard Mack in "Canary Dutch," and E. H. Sothern in "Accused."

On the 75th anniversary of his birthday, Mr. Belasco was at Atlantic City directing the production of a new play preliminary to putting it on Broadway. Up to that time it was estimated that he had staged about 400 plays, of which he had written or helped to write 150. He announced then that his production schedule had been planned for the ensuing eight years with 37 plays listed for presentation.

His First Theatre
It was not until 1902 that Mr. Belasco acquired a theatre of his own. He spent six years and nearly \$1,000,000 in litigation with Klav and Erlanger and other theatrical syndicate managers to establish his independence. Later he acquired interests in theatres in many of the principal cities. At his studio office the Belasco Theatre in New York, he maintained for several years a bureau of playwrighting, which was said to have cost him \$20,000 a year. Thousands of aspiring playwrights submitted manuscripts, none of which was found acceptable, and he discontinued the experiment.

His own method of writing a play was once described by Mr. Belasco after repeated requests to tell how he worked. First of all, he made up his mind as to the period he wanted. Then he obtained all the books possible relating to that time and absorbed them to the last detail. After concentrating upon the plot, he would actually enact the whole play, making up the dialogue as he went along. While doing this, one stenographer recorded every word he uttered, while another took notes of his every movement. In these attempts at realistic playwrighting, he threw himself into every passion known to the stage. As late as his 75th year Mr. Belasco's workday ran from 15 to 18 hours. After the evening at the theatre he usually went to his room where he worked until midnight and often until 2 A. M. He used to say that he found recreation in going over the manuscripts of plays and in occasional attendance at boxing bouts and baseball games. He did not smoke and took only one drink a year—a glass of champagne on his birthday.

"Hearts of Oak," which he wrote in 1880, was regarded by Mr. Belasco as his favorite among all those which he had written or staged, but he considered "Deburau," "The Merchant of Venice," with David Warfield as Shylock, and "Mimi" as his outstanding contributions to the art of the theatre.

His studio was an interesting study of curios and antiques. His great carved oak table is said to have dated back to the 16th century when it occupied a place in an Italian palace; his chair was made from a pew of Shakespeare's church at Stratford-on-Avon, while the tiles of the huge fire place behind his desk were said to have been stolen from the Alhambra at Grenada two centuries ago. There were a large number of mementoes of Napoleon, including a lock of the emperor's hair, sealed in a locket and accompanied by authenticated testimony of its genuineness. Mr. Belasco's collection of books was said to be the most complete dramatic library in the world.

Gave Public His Wants
While meticulous about the plays he presented, Mr. Belasco was anxious to give the public what it wanted and this he usually found a simple problem.

"The public wants almost anything," he said, in discussing that point, and the season's type likely to be set by one play which touches one of the old categories in a new way. The success of a show depends upon a new way of expressing old things and perhaps something novel in presentation and production. We have heard so often that the public is tired of this or that—of crime plays, of sex-plays or of love plays—but every time someone comes along with a new expression of the old plot, interest immediately revives."

It was David Belasco who was credited with having changed the name of Gladys Smith to Mary Pickford. She went to the producer with a note from Blanche Bates and after he heard her recite said he would give her a part.

"But Gladys Smith is no name for an actress," said Mr. Belasco. "I don't like Gladys, either," she said. "What name do you like best?" "Mary."

"All right," said Mr. Belasco, "it will be Mary. Now what are the names of some of your relatives?" The young actress recalled the names of a number of relatives and was interrupted as she uttered that of her uncle, John Pickford.

"That's the name," exclaimed Mr. Belasco. "Mary Pickford." And thus Mary Pickford became a member of the cast of "The Warrens of Virginia."

One of the possessions which Mr. Belasco held sacred and which none but himself ever saw was his "violet book" containing many of these little flowers pressed between its leaves. One of the earliest recollections of his mother was gathering wood violets when he was a child in California. He himself used to pick them for Cecelia Loversh when he was courting her. In after years, whenever things were not going so smoothly with him, his wife or his mother would send a bunch of the violets to his New York studio. From each bouquet a flower was saved and put into the book. The first flower there came from his wife's bridal bouquet.

After his wife had followed his mother in death, Mr. Belasco in his lonely moments derived much consolation by peering through the leaves of his book, each with its little pressed violet.

News of the Churches

GOOD THOUGHT FOR GOOD PEOPLE

No genuine observer can decide otherwise than that the homes of a nation are the bulwarks of personal and national safety and thrift.
—J. G. Holland

My son, forget not my law but let thine heart keep my commandments: For length of days and long life and peace shall they add to thee. So shalt thou find favour and good understanding in the sight of God and man.
—Proverbs 3

Religious liberty, educational and economic opportunity, constitutional rights, the integrity of the law, these do not emanate from the government. Their abiding place is with the people. They come from the consecration of the father, the love of the mother and the devotion of the children. They are the product of that honest, earnest and tireless effort that goes into the rearing of the family altar and the making of the home.
—Calvin Coolidge

Keep the home near heaven. Let it face toward the Father's house. Not only let the day begin and end with God, with mercies acknowledged and forgiveness sought, but let it be seen and felt that God is our chiefest joy. His will in all you do the absolute and sufficient reason.
—James Hamilton

However luxurious one's earthly habitation may be, however blessed with human affection, one never knows the true sense of home until one has awakened spiritually to a realization of true spiritual selfhood. With joy one then discovers that he veritably belongs to the "household of God," and that peace, gladness, and sustenance of the Father's realm all are his. Healing for every unhappy and unideal human relationship lies in gaining the right apprehension of God and in knowing that the household of God always expresses harmony.
—The Christian Science Monitor

CONGREGATIONAL CHURCH

313 Van Buren Ave.
Morton W. Hale, pastor
9:45 a. m.—Sunday school
11:00 a. m.—Morning Worship
6:30 p. m.—Christian Endeavor
7:30 p. m.—Evening Service
The Wheaton gospel group, consisting of Prof. and Mrs. Bae and five young people from the college will assist in all the services of the day.

The weather permitting, at the close of the morning service, the congregation will adjourn to "The Pines" for a picnic dinner and in the afternoon an open air service will be held there. Each one is expected to find his own transportation and bring a basket of lunch.

Choir practice will be held at the church Monday evening.

The regular prayer meeting will meet in the church parlors Wednesday evening at 7:30.

Thursday evening Mrs. John Yates and Mrs. Dewey Williams will entertain the Sowers class at their home at 413 Van Buren Ave.

DIXON STATE HOSPITAL

The Sunday afternoon service for the staff, patients and attendants at 3:15 p. m. on Sunday next will be conducted by the Rev. Lloyd W. Walker of St. Paul's Lutheran church.

SUGAR GROVE CHURCH

Sunday—Bible school at 1:30 p. m., Bert Pearl, Superintendent in charge. The preaching service at 2:30 p. m. will be conducted by the Rev. Walter W. Marshall of the First Baptist church.

FIRST BAPTIST CHURCH

Walter W. Marshall, minister
Mrs. L. M. Drach, S. S. Supt.
Mrs. Elmer Rice, Musical Dir.
Bible school at 9:45 a. m. Adult lesson—"The Supremacy of Jesus." We are delighted with the upward trend of our school. Keep going up. Morning worship at 10:45 a. m. when the pastor will preach on "The Refusals of Christ."

Evening service at 7:30 p. m.—Current topic: "The New Move for a Native Church in India." Sermon theme—"The Precious Savior."

Wednesday at 7:30 p. m.—Mid-week prayer service for prayer and Bible study. Our subject will be "Romans."

Thursday at 6:30 p. m.—The Agog class will meet beginning with a scramble supper. Come and worship with us. Everybody is welcome.

HARMON M. E. CHURCH

Rev. Hugh Archibald, pastor
Sunday school—10:00 a. m.
Worship service—11:00 a. m. Subject "The Bible" Display of unique Bibles.
Young peoples fellowship hour—6:00 p. m. at the church.

FIRST METH. EPIS. CHURCH

Rev. A. Turley Stephenson, pastor
The church school is a school of religious education. There are departments and teachers for pupils of all ages. The school meets at 9:45 a. m. C. C. Hintz is general supt. The regular morning hour of worship is at 10:45. This hour affords opportunity for every man and woman to give expression to the most native longings of his life. The pastor will preach using for his subject "The Price of the Priceless." The chorus choir will sing "Let Not Your Heart Be Troubled" by Russell.

The evening hour of worship at 7:30 offers an unusual opportunity to all lovers of sacred music. The chorus choir of the Embury Methodist church of Freeport of forty voices will render a special program of religious music. A large audience will no doubt be present at this service.

The young people will meet in the regular Epworth League hour at six-thirty.
The regular mid-week hour of song service, prayer and Bible study will be on Wednesday evening at

7:30.
The Rock River Valley group of the Ladies Aid societies will meet in the regular spring conference at Morrison next Tuesday, May 19. This will be an all-day meeting, beginning in the morning at 10:00 o'clock. Luncheon will be served at noon. In the afternoon moving pictures will be shown picturing the work of the district by the various district organizations.

The annual district meeting of the Woman's Home Missionary society of the Joliet-Dixon district will be held at Sterling May 21-22. A complete program has been arranged for these two days and a large number from our church is planning to attend. For further information in this regard see Mrs. H. D. Bills or Miss Estella Anderson.

CHURCH OF THE BRETHREN

Cor. Third and Madison
B. C. Whitmore, Pastor
At 10 o'clock next Sunday our Sunday school meets to study a lesson on peace. "Jesus Enters Jerusalem as King." Jesus' Kingship and World Peace is the topic. The Golden Text is "And He shall speak peace to the Nations." Zach. 9:10. The word needs a king—y king who rules love. That king is Jesus, and his kingdom of love. We all want His as Savior, but do we want Him a Lord and King to over-rule and direct all our affairs? The only hope for universal peace is under the rulership of the Son of God. The sermon for the worship hour at 11 will be, "A Radiant Religion." This message will be helpful to the christian who desires to be useful in the fullest way. Your friends will appreciate your invitation to accompany you to church.

The evening service will be special, beginning at 7 o'clock in the main room with song service and worship and a solo by Lynn Abbott singing "My God and Father, While I Stray," and followed by a most interesting lecture on the experiences of a Medical Missionary in India by Dr. A. R. Cottrell who has spent two terms on the India field. You and your friends will certainly be interested in his address, and it is certain you will feel well repaid for any effort you may have to make to hear him. Everyone cordially invited.

Special members meeting at 7:45 Monday evening.

ST. PAUL'S EVAN. LUTH. CHURCH

Lloyd Warren Walter, pastor
Rev. Carl B. Caughman, pastor in India

9:30 a. m.—Bible school. Despite the down pour of rain last Sunday there was a good attendance. A brief but excellent program for Mother's Day was given. Be regular and be on time so as not to miss any good thing.

10:45 a. m.—Divine worship. The regular choir sings, the pastor will preach.
5:30 p. m.—At the colony divine worship in charge of the pastor.
6:30 p. m.—Luther League. Topic—"The Ascension." Leader, Lillian Koepfer.

7:30 p. m.—Vespers. The Junior choir sings. Sermon by the pastor.

Monday 6:30 p. m.—At Rockford the brotherhood banquet at Trinity Lutheran church. This is the opening of the convention of the synodical brotherhood of Illinois Synod. About 20 men of the local church are planning to go. The sessions continue during Tuesday.

Tuesday 7:45 p. m.—At Rockford Trinity Lutheran church the sessions of the Illinois Synod open with the celebration of Holy Communion. Mr. Clarence Wickey is the lay-delegate from St. Paul's congregation.

Saturday 2:00 p. m.—Class for confirmation meets in the church parlors.

You are invited to all our appointments.

AMBOY LUTHERAN CHURCH

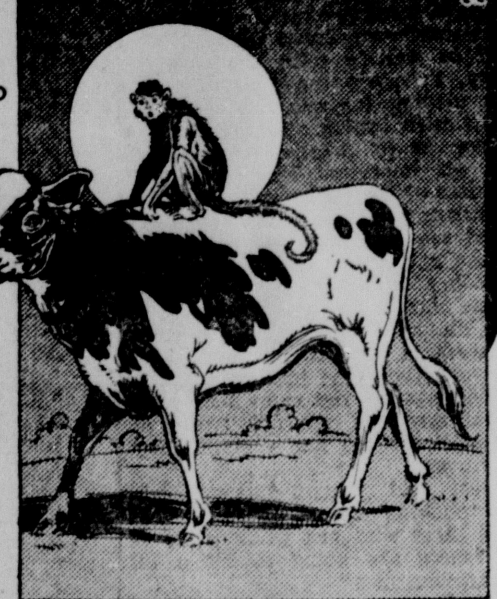

"The Wayside Chapel"
A. G. Suechting, Pastor
Sixth Sunday After Easter
Most everyone is interested in a wedding. Why? Because it is a very happy occasion. It binds together for life the lives of two persons. Our Lord began His public ministry here upon earth with a wedding. He attended the wedding of Cana in Galilee where He changed the water into wine. This Sunday's sermon deals with "The Marriage of the King's Son." Our slogan is, "Come, let them to come in." Whether talking over the telephone or over the back fence, invite your friends and neighbors to next Sunday's service.

Friday at 2:30 p. m.—The Woman's Missionary Society will meet with Mrs. W. E. Wood, 321 E. Fourth St. All members give heed and be present.

Forreston's Gravel

Pit Leased By I. C.

Springfield, Ill., May 15—(AP)—The Illinois Commerce Commission today approved lease by the Illinois Central railroad to the Morton Sand & Gravel Company of a gravel pit and plant at Forreston, Ogle county. The rental is \$12,000 cash per year plus a royalty of 3 cents per yard on all sand and gravel the Morton company shall sell commercially from the plant.

Other orders passed by the commission today included:
Directing the Illinois Central and Illinois Terminal railroads to place in effect within 30 days a rate of not to exceed 22 1-2 cents per hundred pounds for shipments of empty return cars from Decatur to Monsanto. The present rate is 23 1-2 cents. The reduction followed complaint as to the rate by the Faries Manufacturing Company, Decatur.

Granting a certificate to the Illinois Power & Light Corporation to construct and operate a 33,000-volt electric transmission line from a point in Section 33, Township 12 north, range 1 east, northwardly approximately 5 1-2 miles, all in Knox county. The line is a part of the interchange system of the Illinois Power & Light corporation and the Illinois Northern Utilities Company.

LEAGUE EXPERTS PLAN SYSTEM OF RURAL HYGIENE

Geneva—(UP)—League of Nations' experts have just completed a project for recommendation to all nations of a standardized system of rural hygiene.

Leagueers are convinced that one element in the present world-wide economic crisis is the necessity of keeping the health and productive capacity of rural workers up to that of their urban brothers.

The project provides amongst other things one physician for every 2,000 persons; an auxiliary nursing and technical staff; the presence on the spot in the smallest rural unit to render first aid and carry out prescriptions.

The project is to be submitted to an international conference on rural hygiene for final adoption.

SOVIET RUSSIA GUARDS DARDANELLES CAREFULLY

Geneva—(UP)—Soviet Russia is keeping its side door entrance through the Dardanelles thoroughly well guarded.

According to the annual report just made to the League of Nations by the International Straits Commission at Constantinople, the Russian fleet remains at all times the most powerful one in the Black Sea.

It consists at the present time of one capital ship, formerly belonging to the Baltic fleet; two cruisers, one of which also came from the Baltic fleet; five torpedo boats; five submarines; four mine sweepers; eleven patrol boats; two auxiliary vessels; three training ships and twenty-one training hydroplanes.

The minister's sermons will be "Christ—and Him Crucified," and "I am Debtor." The evening sermon will be the final one for the minister as pastor of the Dixon congregation.

BETHEL U. E. CHURCH
The growing church
Cor. N. Galena and Morgan St.
Paul D. Gordon, Pastor
Bible School 9:45 A. M. J. U. Weyant, Supt. New members are coming into our school almost every Sunday and we urge every one of the older members to be on the "job."

Morning Worship 10:45. Members of Bethel church should make special effort to be at church Sunday morning as the message will be of interest to them.

Evening Worship 7:30 "Christ's Power to Save From Sin" will be the theme for the message and you will enjoy the half hour song service preceding the short gospel message.

K. L. C. E. 6:45 This is always a time of blessing. Come early and enjoy it. It will prepare you for the evening service.

Prayer meeting Wed. 7:30 P. M. We have two classes in the prayer meeting, find your place in one of them and help pray down the power that is so much needed in the church today.

You always find a welcome when you come to Bethel church.

HOPPE, COCHRAN TO APPEAR HERE IN AN EXHIBITION

Two Stars Of Billiards Will Be Seen In Dixon Monday

Playing independently and wholly apart from the National Billiard Association, Willie Hoppe and Walter Cochran, balk line and three cushion billiard experts, will appear at the Hub billiard parlors in Dixon, Monday at 3 and 8 P. M., for a thorough exhibition of their specialty. Each performance will be followed by a demonstration of fancy shots.

Cochran comes to town as newly-crowned champion at 181 balk line, having defeated Hoppe at the Strand Academy in New York in a week of play. The new title-holder ran up an enormous lead early in the week, taking advantage of Hoppe's erratic play, and was able to withstand the champion's spurt in the closing innings of the fight.

Cochran took possession of the \$500 diamond medal, emblematic of the championship, which he has held for twenty-four years. It was a hard loss, but Hoppe met the bonafide challenge and failed to his regular form until it was too late to save anything from the wreck.

During their match the billiard masters played some of the most sensational billiards ever fashioned in the difficult 181 style of play. Taking the balls out of balk on every shot, Cochran established a world's record high run of 196 in the third block of the match. This displaced the mark of 140 which Frank Ives made in 1901. Four times Cochran eclipsed this thirty-year-old record before the play ended and Hoppe turned the trick twice with runs of 170 and 157.

Because Hoppe and Cochran defied the billiard monopolists, the National Billiard Association refused to recognize the match as a championship. However, they were the only ones to do so.

William F. Hoppe is forty-three years old and began playing billiards when he was seven. They used to build a platform around the table so he could see over the top of the rail. He holds a cue more delicately than any other player, yet his stroke is equally as powerful. He uses a cue weighing 18 1/2 ounces.

At the age of eighteen years he went to Paris, to challenge Maurice Vignaux for the world's title at 181. That was in January 1906. His brother, then twenty, went along as chaperon and general caretaker. They hit Paris. In two days the young Willie was taking care of the older brother who had come to care for him. Willie won the title one night and the tidings were flashed to every part of the globe.

Hoppe plays balk line, three cushion, four-ball billiards and pocket billiards equally as well. He is somewhat of an expert at bridge, and is an expert mathematician. He plays the diamond system and all its branches. It is agreed that he hits balls differently than anyone else, yet obtains equally good, if not better results. His masse shots are some of the best because he sometimes cues for thirty seconds before letting go.

Hoppe is a football enthusiast, goes to many big games with his son, who is now eleven and says that the youngster never will be a billiard player. Hoppe was in a dinner coat, before that they all wore those trick vests with the satin sleeves.

A grand total of 2,000 spectators and every newspaper in New York covered the event as a championship affair. Hoppe placed his title at stake and lost the medal. The two foremost players met. What other requisite must a championship have?

Hoppe and Cochran form the nucleus of a new player organization known as the Federation of Billiard Players through which they hope to break the penal servitude under which the top flight billiardists are forced to play or starve in consequence.

In their current coast-to-coast exhibition tour, Hoppe and Cochran plan to enlist the sympathy and backing of the large billiard rooms and promote billiards and players as it should be done. They are fighting the attempt of the National Billiard Association to kill off interest in balk line billiards, and there is every indication that their efforts will be amply rewarded.

Plans already are under way for a challenge match at 181 after sixty days and Hoppe hopes to regain his medal and title. The players also are considering a four-cornered tournament with two additional balk line stars in the fold and playing twice around. Chicago has been selected as the site to hold an international tournament for the 182 balk line championship at which time Young Jake Schaefer is expected to defend his world's championship.

Sympathy, of course, has turned to the players. The general public and the room keepers are anxious to see the monopoly on star performers broken. With two of the foremost players in the world heading the movement, there is little chance of failing.

Welker Cochran is thirty-three years old and comes from California. He began playing billiards when ten years old and experts believe that his versatility is the best in the game. Cochran also uses a cue weighing 18 1/2 ounces.

His recent victory at New York was the first that Cochran ever scored over Hoppe in a championship.

Canada's Envoy on Wedding Trip

A brilliant wedding in the Canadian capital behind them, Major W. D. Herridge, Canada's Minister-designate to the United States, and his bride, the former Mildred Bennett, sister of Prime Minister R. B. Bennett, are pictured above as they sailed from New York for Europe. After their wedding trip, Major Herridge will take up his duties at the Canadian legation in Washington. Mrs. Herridge has been official hostess for the Canadian premier in Ottawa.

ship match and he says it won't be the last. He won the 182 balk line title in a tournament at Washington and lost only one game, but it was to Hoppe.

Cochran has just about the best stroke in billiards. He can put more action into a ball with a flick of his wrist than any other player. Jake Schaefer is the only one whose easy stroke is comparable to that of the coast wizard. He likes Wall Street and last year during the terrible upheaval, Cochran was playing afternoon and night matches at balkline with Eric Hagenlacher, and managing stock sales and accounts during the day. He averaged four hours sleep at night and beat the German with an average of better than 40.

He does not play the system in three cushions, but his shots made by sizing up a position work out mathematically. He is one of the few really natural players ever developed.

No. Ill. League Starts on Sunday

With an outlook for agreeable weather next Sunday it is expected that all of the teams of the Northern Illinois Baseball League will swing into action and officially open the schedule. Last Sunday all of the games were rained out and these games will be played at the close of the schedule. The list of games for Sunday afternoon is as follows:
Sterling at Ohio
Harmon at Sublette
Lee Center at Walton
Mendota at Oak Ridge

GO TO CHURCH SUNDAY

STERLING WINS CROSS COUNTRY RACE THURSDAY

Scored 142 Points To Defeat Dixon In Annual Meeting

By DONALD HILLIKER
Sterling won the annual Dixon-Sterling cross-country meet held Thursday afternoon in that city. The host school scored 142 points to the local's 158.

Each school entered twelve contestants in the event. The course, over a road outside the city limits of Sterling, was one and one-eighth miles. The first man to cross the finish line scored one point, the second man two points, with the final man scoring twenty-four points. The team scoring the least points is declared the winner.

The first runner to finish was Williams, Dixon, distance man, who covered the course in 5 minutes 42.1 seconds to win easily. About ten yards behind Williams was Harrison of Sterling. At Harrison's heels was Compton of Dixon, heretofore an obscure runner who ran a good race to place third. Following Compton was Kanaka, Sterling man.

The other local runners in the order in which they finished were Padgett seventh, Fordham eighth, Swigle ninth, Hasselberg tenth, Trotter sixteenth, Flanigan seventeenth, Henry eighteenth and Ramsey, Tilton and Wulbrandt, who finished in the last three positions respectively.

This cross-country run closed the competition for the 1931 track squad. The local record this season is as follows: won two dual meets, lost two dual meets, third in conference meet, fifth in district meet.

Oak Ridge To Meet Mendota On Sunday

Oak Ridge will play the strong Mendota team on the former's diamond Sunday. Mendota is rated as one of the strongest teams in the Northern Illinois Baseball League and a lively game can be expected for the Oak Ridge fans.

Manager Russell Warner has the Oak Ridge diamond in splendid shape and his team is in good condition winning their first three games this season. E. Lebre will do the pitching, with either Himes or Conway behind the bat.

DANCING AS IMMORAL

Peiping — (UP)—Chinese officials in Hupeh province of which Han-Kow is the principal city, have been forbidden to indulge in western dances, according to an official order. The order states western dancing is immoral. Chinese officials in Peiping hope the order will not serve as a model here. Western dances have become very popular here, and several dance halls have opened with Chinese girls as dancing partners. Officials are eager patrons of these night clubs.

FAIR WEATHER IS IN PROSPECT FOR SATURDAY CLASSIC

Advance Guard Of Fans Arriving For Kentucky Derby

By ALAN GOULD
Associated Press Sports Editor
Louisville, Ky., May 15 — (AP) — They like their horse races down here in the blue grass, under any conditions, so even the old line of Kentucky turfmen today accepted the prospect that, barring an upset, it will be an all-eastern battle for three-year-old honors in the fifty-seventh running of the classic Derby.

East or west, good times or bad, tomorrow's blue ribbon event of the American turf figured to be just that—a horse race and perhaps as excitingly close as any Kentucky Derby since the war.

Two years ago Clyde Van Duzen, the little mud horse, outrushed the pride of the blue grass, Blue Larkspur and won. Last year in another down-pour, Gallant Fox beat the best the west had to offer. Tomorrow, not one but two crack eastern thoroughbreds, Mrs. Payne Whitney's Twenty Grand and Albert C. Bostwick's Mate, are favored to renew their racing feud in a fight for the winner's wreath of roses and close to \$80,000 in prize money.

Probably Fair
They probably will have fair weather for this turf duel, whether or not it fulfills the expectations of a crowd of perhaps 50,000 spectators including Charles Curtis, the Vice President of the United States and guest of honor. C. V. (Sonny) Whitney's one-time Derby favorite, Equipoise, may stage a comeback after several disappointments. Somehow the west may realize its fondest hopes and crash through with such a contender as Thomas E. Mueller's Pittsburgher, the "Big Train", Griffin Watkins' Inco or Charles T. Fisher's Sweep All. There wouldn't be a horse race if there weren't these hopes and fears and arguments but the big debate today centered on the "chances" that Twenty Grand will have the stuff to turn the tables on Mate, the Preakness victor, over the longer route of one mile and a quarter—at equal weights, 126 pounds, and with an even break in the racing luck.

Is Big Argument
It's been the big argument since they were the two-year-old stars. It may be settled tomorrow. There is not only the chance of the dope being upset but there are also big tests to come, even though the Derby winner will wear the three-year-old crown, at least for the time being.

Twenty Grand, the handsome bay aristocrat with the slangy name, looked like a million to his backers yesterday in clicking off an impressive final trial in 1:42 3/4 for the mile and 1:57, eased up, for the mile and an eighth. It showed the colt to be in grand shape and overshadowed a half dozen other good workouts by such contenders as Mate, Inco and Walter J. Salmon's Ladder, which was third in the Preakness.

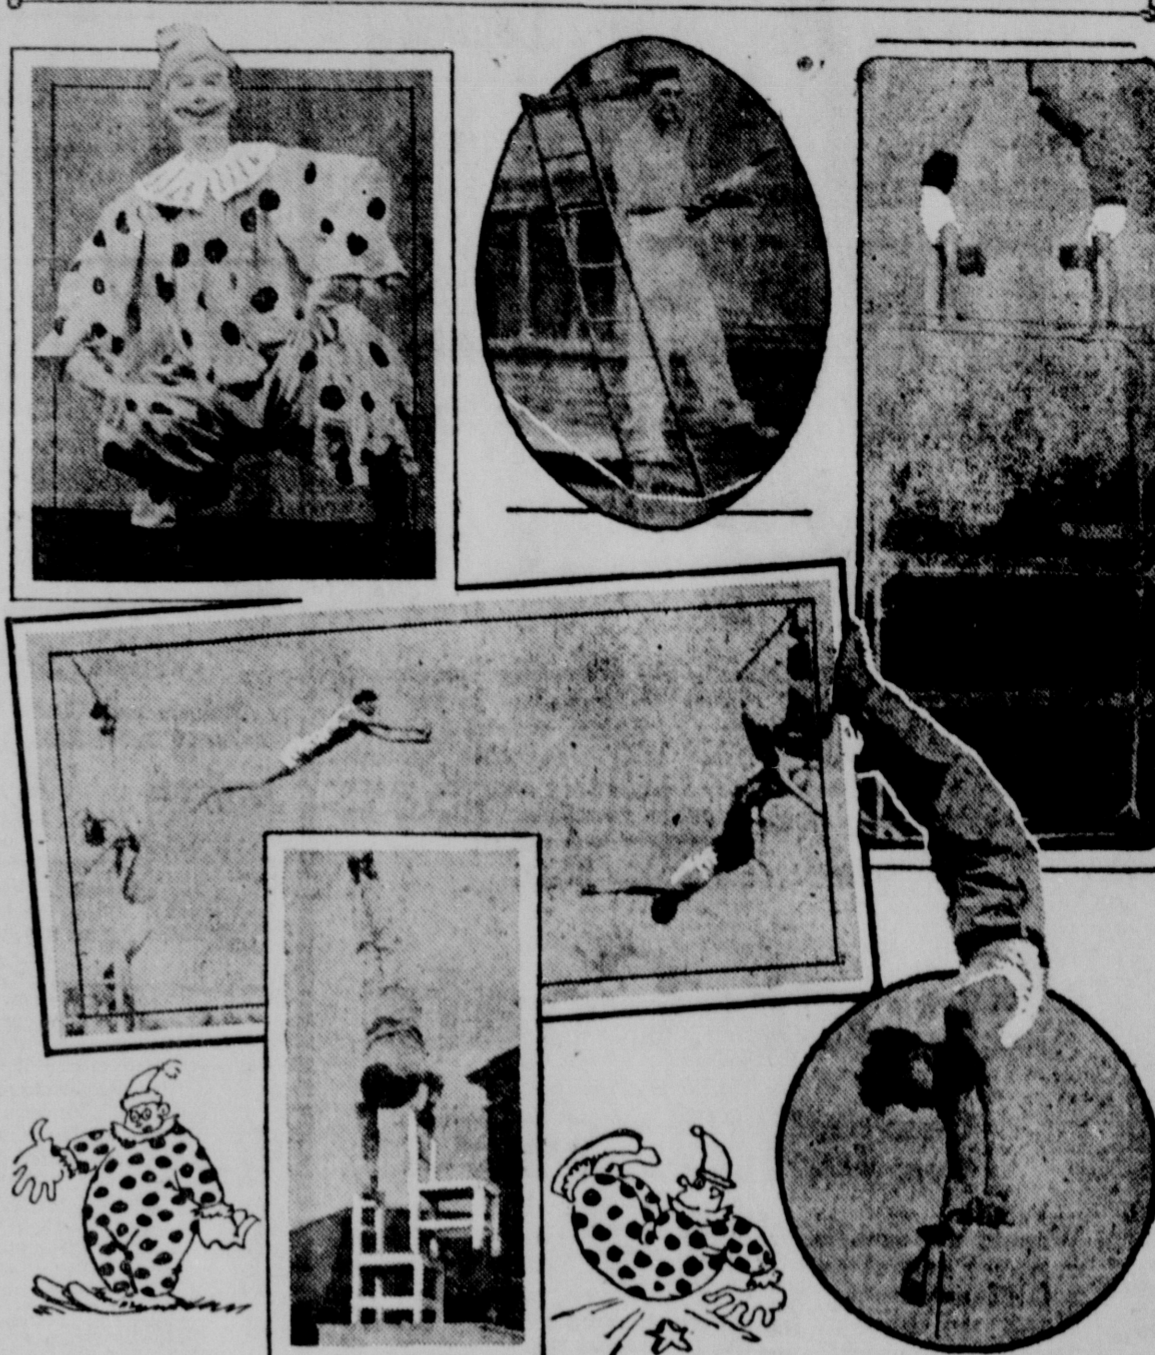

Twenty Grand likes a fairly dry and fast track and probably will get it. The son of St. Germans-Bonus, coupled with Anchors Aweigh and Surfboard as the Greenree stable entry, was quoted as a 5 to 2 favorite. Mate was second choice at 7 to 2 and strongly backed for the attempt to duplicate the feats of Sir Barton and Gallant Fox in winning both the Derby and Preakness.

Equipoise Third
Equipoise, despite some doubt as to his condition, was rated third in the wagering, at 4 to 1. The son of Pennant has worked well enough to convince his trainer that he has a good chance to win.

Pittsburgher, carrying much of the western hopes developed strong backing this week after beating Spanish Play and Sweep All, two other contenders, in the Derby trial. The "Big Train" has shown exceptional early speed, convincing his followers he can run in any kind of going, but experts doubt his ability to win at the route. The southern winners are represented by Spanish Play, victor in the Louisiana Derby, who Chicago-owned, H. C. Hatch's Boys Howdy won the Cuban Derby. Far western colors are carried by Up, the colt owned by Mrs. James N. Crofton and the winner of the Agua Caliente Derby, but Up is strictly a mud horse and rated a doubtful starter in view of the prospects of good weather. Three straight years of Derby rains came too early for this son of High Cloud.

The picturesque Downs will be a blaze of color, if Old Sol beams. They will be jammed, too, even if there isn't a record crowd, for the turf followers have flocked in by boat, motor and train airplanes, blimps and even by autogiro. And there should be plenty of Derby thrills, even with the

ILLINI STAGE CIRCUS SATURDAY NIGHT

Upwards of 1,000 student performers will appear in the famous University of Illinois circus which will be presented Saturday night in the stadium at 7 o'clock.

This will be the twenty-fourth presentation of the traditional entertainment, which is an appropriate climax to the interscholastic weekend.

For many weeks student acrobats, aerialists, wire-walkers and others have been training under the direction of C. O. Jackson of the staff of the athletic department. Interspersed with the "straight" acts will be many burlesques of student and national life presented by university fraternities and other organizations.

More than 300 bandmen will provide music and there will be a display of fireworks as a finale.

colors of E. R. Bradley missing for the first time in many moons and no Earle Sande to arouse popular enthusiasm.

LOUGHRAN AND CAMPOLO MEET IN THE GARDEN

Tonight's Fight Is Important To Both Of The Fighters

New York, May 15—(AP)—Tommy Loughran, whose accurate left hand is a source of constant embarrassment to his fistic rivals, meets the hags Italian from the Argentine, Victorio Campolo, in a ten round bout in Madison Square Garden tonight.

Although Tommy will be giving away 40 pounds in weight, six inches in height, and more than that in reach, the clever Philadelphia rules man has a choice to win.

Loughran, who has won seven successive fights in an amazing comeback campaign after his knockout by Jack Sharkey, will scale little more than 180 pounds as compared with the 225 or 230 pounds Campolo will weigh. But Campolo's chief weapon is a right hand shot to the body and few right hand hitters have managed to land squarely on the speedy Philadelphia. Experts figure that Tommy will keep away from Victorio's heaviest fists without particular trouble and score enough points with that left hand and walk off with the decision.

Tony Galante, New Jersey heavyweight, battles Paul Cavalier of New York in the ten round semi-final, and Steve Hamas, all-around athlete at Penn State after playing on the Pascale, N. J., high school's "wonder basketball team," collides with Al Morro in the first ten.

Brief Summary of Last Night's News

By The Associated Press

DOMESTIC:
Washington — Green says labor would be fully justified in striking to prevent wage reductions.

Indianapolis — American Legion Executive Committee directs National Commander to petition Hoover for a non-political conference on economic conditions.

Washington — Red Cross business and administration is under survey of efficiency engineers seeking possible economies.

Oklahoma City — Governor Murray orders ouster proceedings against nine public utilities in campaign for reduced gas rates.

Washington — Senator Hull says lowering of the Hawley-Smoot tariff would require 125 years at the rate of action of the Hoover administration through the flexible tariff provisions.

Evarts, Ky. — William Hightower, president of the local miners' union, is arrested on murder charge resulting from killings in labor trouble.

Washington — Hoover praises Nicaraguan Canal survey by Army engineers.

New York — Bust of late Ambassador Herrick, carved from White House beam, is entrusted to delega-

He was prominent in Jacksonville business circles, and in Masonic and Elks activities.

Champaign — Francis Thursdahl, Chicago, and Samuel Keys, Lincoln, Ill., were elected to the Illinois Board of Control at the University of Illinois.

Springfield — Melvin Burkett, 46, was fatally injured when struck by an automobile driven by Henry Sommer. Burkett was walking in the road. Sommer and his family were slightly injured when he turned into an embankment in an effort to miss him.

Bloomington — Cicero high school won the state high school debating contest by winning all four debates in which it participated.

529 HIGH SCHOOL ATHLETES ENTER STATE CONTESTS

Preliminaries Being Held At Champaign This Afternoon

Champaign, Ill., May 15—(AP)—Illinois' thirty seventh inter-scholastic track and field meet, bringing together the cream of prep tracksters from all corners of the state, started today with preliminaries this afternoon in five track events and six field events. Surveys of outstanding performances of the prep stars in the district meets last week fail to bring into the limelight any first place winners of last year but reveal a host of youngsters with a raft of speed.

Two state records were unofficially broken in the district meets last week when George Meagher, Dupue, bettered the broad jump mark with a leap of 23 feet, two inches, and Bob Stephen of Joliet put the shot 51 feet, eleven and one-quarter inches.

A darkhorse dashman appears in Joerfelts, Woodstock, while Crain Portman, Urbana, is the central Illinois favorite. In the 440 yard dash, the best time of :52.3 was turned in by Cecil Crowell, Oregon, and East-inger, Dundee.

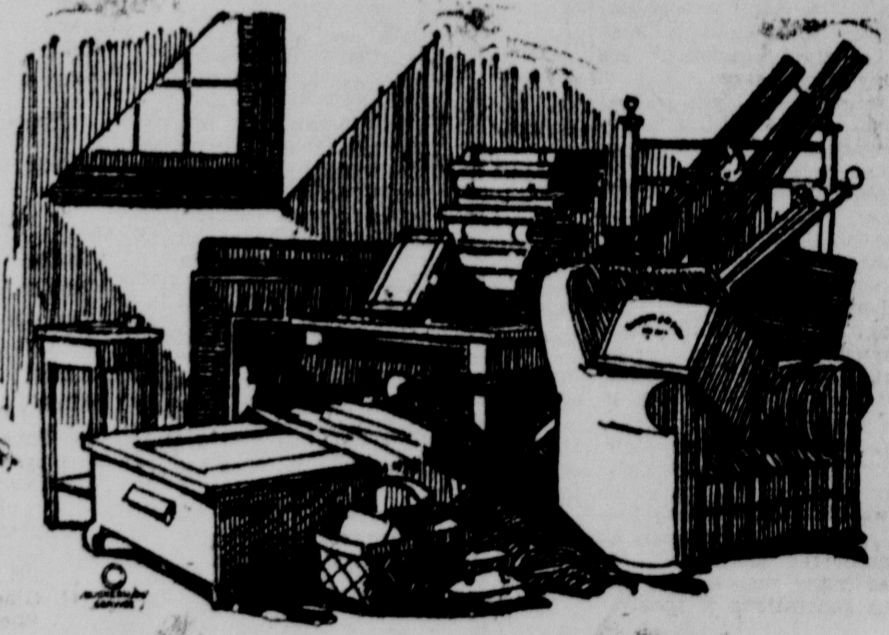

In the jumps, Hoffman Tremont, turned in the best high jump of five feet, eleven inches, and Remels, Elgin in the pole vault with a vault of eleven feet eleven inches.

Oak Park defending champions and districts champions from LaGrange, will bring the fastest half mile relay team on the basis of past performance along with Herman, a good sprinter, and Olson, shot putter.

Senn, winner of the Chicago district is believed to have a strong will be represented by full teams include: East Aurora Mattoon, Rockford, Herrin, Johnson City, Illinois School for Deaf Centralia, Peoria Central, Galesburg, Streator, Bridgeport, Moline, Urbana and Attucks of Carbondale.

Five hundred and twenty nine are entered in the oldest inter-scholastic in the middle west from one hundred and eighty six high schools. The gold and tennis finals were also started today with forty-seven competing on the Urbana Country Club course and twenty eight playing in the tennis singles and twenty six in the doubles.

DEAN OF HARVARD SAYS GOVT. MUST START BIG WORK

Faces Dole System By Next Winter Unless That Is Done

St. Louis, May 13—(UP)—America faces the dole system unless the Federal Government, between now and next winter, starts work on a large scale, Dean Wallace B. Donham of the Harvard Graduate School of Business Administration, predicted before the Associated Harvard Clubs, here.

He and Prof. Frank M. Taussig, economist and former member of the Tariff Commission, scrutinized the business depression in addresses before the annual convention, while United States Senator Robert J. Bulkley, Democrat of Ohio, pleaded for a revival of party responsibility as a means of better government, and urged individual state control of prohibition.

"Capitalism is on trial and on the issue of this trial may depend the whole future of western civilization," Dean Donham said. "The justification of capitalism is efficiency. Our present situation both here and in all the great industrial nations of the world is a major breakdown of capitalism."

Leadership in business and government "which thinks in terms of broad social problems instead of in terms of particular companies," is needed if capitalism is to solve the present depression, Donham said.

Although he considered a business pickup certain this summer, the Dean believed there would not be a substantial reduction in unemployment before next winter.

Something Must Be Done

"Unless something is done about it at once," he said. "We face next winter, through the ill considered but nevertheless necessary action of our federal congress, the beginnings of that curse of industrial nations, a dole system. The only remedy for unemployment is work but when work fails, doles will begin."

"Our one alternative to the dole, an alternative only possible if adopted at once, is work, work started on a large scale by the federal government. Such work will itself start up industry to fill government contracts, and build up the buying power of our people, remove fear, and bring to business the government as a huge purchaser in a great variety of fields."

Prof. Taussig said the depression has shown that a high tariff is no longer "a panacea for all industrial ills."

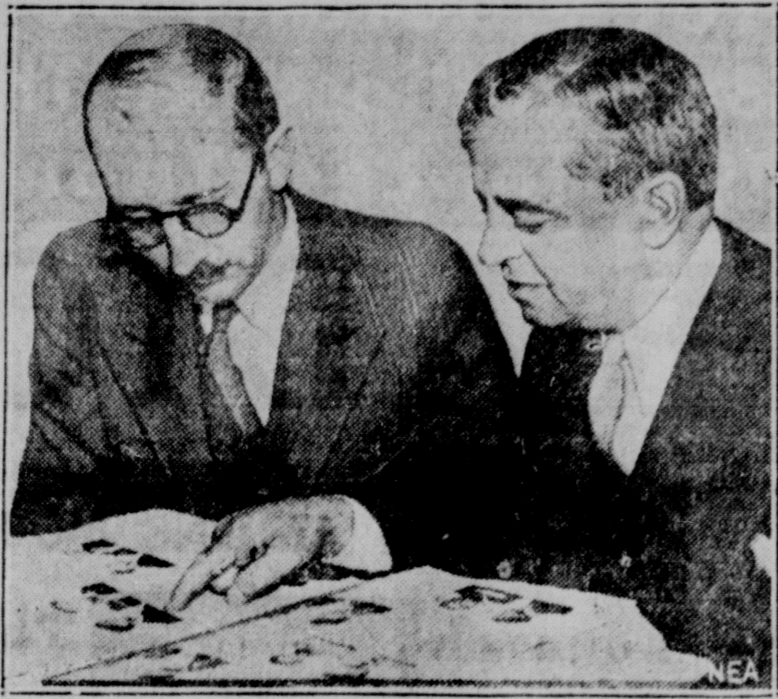

"This country would be prosperous under a low system of duties or under a high system of duties. Our high tariff is not the mainstay of prosperity," he said.

He urged the present tariff be pruned "of its many excesses and absurdities. This can be done without serious injury to any important industry."

The present depression experience he saw as finally convincing "millions of good republicans" that the protective tariff does not assure prosperity.

Senator Bulkley urged a revival of party responsibility because at present "party responsibility and party solidarity are at such low ebb that intelligent men are asking what is the difference between a Democrat and a Republican."

Clara Bow's Dad Aids Her

Robert Bow, left, father of film actress Clara Bow, is shown with Police Captain Stensland as he identified rogues' gallery pictures of Guy L. Rockwell, former federal convict, as one of two men who approached him and Rex Bell with a proposition to "buy" a newly-formed Hollywood newspaper which printed articles attacking Miss Bow, deputies claim. Fred Girman, editor of the paper, was arrested.

whom it is given, and similar factors. Caffeine drinks stimulate energy production, speed up the breathing rate, and increase the activity of the kidneys. It is known also that continued use of tea and coffee tends to produce tolerance, so that one can drink more without being affected.

The physiologic processes in the body of the child are more active than in the adult. The energy needs of the child are greater than those of the adult, and it is not advisable to replace the food that it should take by substances without considerable food value. Drinks that stimulate the metabolism increase the energy needs even more.

Cocoa contains theobromine, a chemical substance closely related to caffeine. It is believed that it differs from caffeine only in having a greater effect on the kidneys and a less effect on the central nervous system. It would, therefore, be expected that cocoa would have the same effect on the child as tea or coffee, although it might have less tendency to produce sleeplessness.

Cocoa made with water and sugar has just about the strength of a cup of coffee. Cocoa made with milk is equivalent to milk flavored with two tablespoons of coffee brew.

As a conclusion to these considerations, Dr. Roberts feels that cocoa made with milk is likely to be less harmful to the child than tea or coffee, but that cocoa made with water is but little different than tea or coffee.

Natural Theater Near Prison Gate

Joliet, Ill., May 14—(AP)—A steep-sided rock quarry outside the walls of the Illinois state penitentiary here will be converted into a natural amphitheatre to provide recreation for convicts, Warden Henry C. Hill announced today.

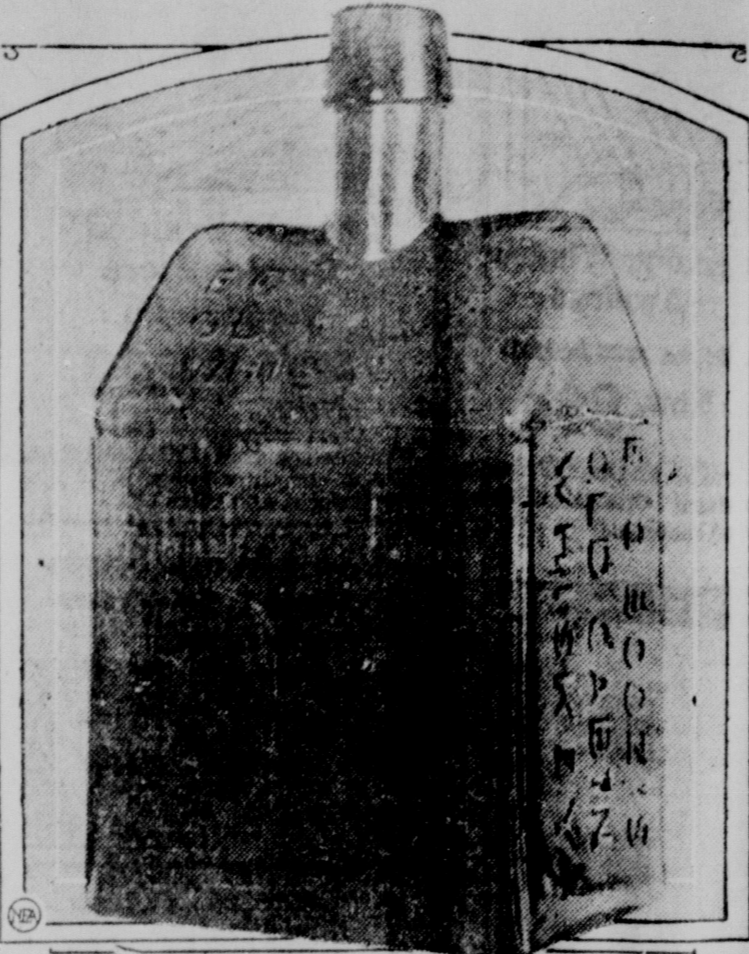

The quarry has been abandoned, but while it was in operation with convict labor, a tunnel was built from the prison proper, beneath the street along which one wall runs, and through the quarry's sharp sides. The quarry's walls are so steep and high that when two baseball diamonds have been laid out on its floor and bleachers for the 1,700 convicts erected, the distance from the topmost seat to the ground level above will be too great to offer danger of escape without artificial aid.

It is planned to begin work on the project within a few days, using convict labor. When the amphitheatre is complete, prison baseball teams will be matched against each other on Saturdays, with other inmates, escorted in safety through the tunnel as spectators.

TO FEDERAL PRISON

Chicago, May 14—(UP)—Two Rockford men who pleaded guilty to robbing three postal substations in Chicago were sentenced today by Federal Judge John P. Barnes to Leavenworth penitentiary terms. Frank Rogers, 30, the leader, was sentenced to six years, and James Russell, 30, to five years.

This Is Why It's Called Booze

Long years ago, children, when your great-grandfather used to be forever staying up with sick friends, there was a man by the name of E. G. Booz who lived in Woodbury, N. J. He made bottles like the one you see in this picture and he filled them with a strange, amber-colored liquid which was known to the people of those days as "whiskey." And people who had colds, and even people who didn't, bought these bottles, and soon they came to ask for the whiskey by the name of the maker—Booz. Now the bottles are very rare, and this one attracted lots of attention when it was exhibited at the annual Ceramics Exposition at Rutgers University.

said. "They're sick of their royal family."

"Queen Marie and Prince Carol, and the others," he said, "have made a comic opera out of Roumania. Americans think that all Roumanians are like Queen Marie and the others. But they are far from that. The Roumanian people are starving."

"The monarchy has been extravagant beyond hope. All Roumania is interested in the United States for its borrowing money. And when I write an article or a book against the monarchy, they get after me. The Roumanian government is selling monopolies—selling the government's wealth. All the constitutional rights of the people have been abrogated. Marie and her clique have control over the banks. That's what stands in Carol's way. He isn't free."

"The Roumanian people are starving and cold. They have no seeds to plant. They can't sell their wheat. If they had seeds to plant they wouldn't plant them this spring. The majority of them are not plowing this spring. They know that their day is at hand. Something is bound to happen. And Carol had better get out while the getting's good. Else he'll lose his head in the bargain."

DEATH INVESTIGATED

Shelbyville, Ill., May 14—(UP)—Death of Mrs. Norena Donelson, 21, estranged wife of Clyde Donelson, both local residents, was under investigation by Shelby county authorities today following the finding of her body with a bullet wound in the head in the home of Tony Cahoon, alleged bootlegger, here last night.

"Hold Me Tight, Mamma!"

Little African Monkey, Jr., was frightened when the cameraman "shot" him in Overton Park zoo, Memphis, Tenn. He clutched his mother and cried "Eek, eek!" which translated into the English language means "Save me from that bad man and his machine!" But Mrs. Mamma Monkey knew there wasn't any danger. She reassured her startled offspring and nibbled unconcernedly on a lettuce leaf.

to the restroom fund for its continuance until something further could be done.

Mrs. John Price, president of the Pine Creek club gave a talk and Mrs. A. R. Dry of Freeport, president of the district, gave a talk on district work.

Mrs. Erma O'Kane, retiring program chairman, presented Mrs. Coffman, Mrs. Price and Mrs. Dry with formal bouquets.

The meeting was the final meeting of the season until the picnic that will be held July 14 at The Pines.

Mrs. R. A. Keefe entertained the Utopian circle at her home Thursday afternoon. The business meeting was held after which Mrs. S. P. Good, read a paper on "Holland" and Mrs. Wm. Poole read a paper on "The Passion Play." Following the program Mrs. Keefe served a delicious dinner.

Particular housekeepers use nothing but our white, pink, green or canary colored paper for the pantry shelves and bureau drawers. In rolls 10c to 50c. B. F. Shaw Printing Co.

WOMAN IS DEFIANT

Chicago, May 13—(UP)—Mrs. Eva Hamilton, president of the Chicago Zoning Board, who has defied efforts of Mayor Anton J. Cermak to oust her since his election, had only a desk and a chair today but still was drawing her salary.

Cermak today ordered Mrs. Hamilton's automobile taken from her and "put into circulation in the police department as a squad car." Several days ago he removed all the force from Mrs. Hamilton's office. When she still refused to resign, Cermak removed her secretary.

Mrs. Hamilton was in her office today and said she intended to remain as president of the board despite Cermak's orders. The six other members of the board resigned when Cermak defeated William Hale Thompson.

There is a town called Beebe Plain, which stands half in the state of Vermont and half in the province of Quebec, Canada. The post office was built exactly on the boundary line between the United States and Canada.

WARDEPARTMENT PLANS TO FORM BIG ARMY, TOLD

Mobilization Of Four Million Men Possible In Plans

Washington, May 14—(AP)—War Department plans for instant mobilization of an army of 4,000,000 men were outlined yesterday before the War Policies Commission, by General Douglas MacArthur almost immediately after the receipt of a protest from the Federal Council of Churches that elaborate war preparations would diminish national security.

MacArthur, appearing at the commission's resumption of hearings to find a method to take the profits out of war, explained in detail the War Department plans for military and industrial mobilization.

Earlier Assistant Secretary of War Payne had said the War and Navy departments, assisted by other agencies, were developing plans adequate for the mobilization of the nation's economic and industrial resources.

The administrative committee of the Federal Council of Churches, in a statement to the commission, contended elaborate war plans would "create suspicion and fear among nations of the world and diminish rather than increase the security of the United States."

MacArthur testified the War Department plans called for mobilization of an army of 4,000,000 under a selective service draft from a registration roll of 11,000,000.

The Chief of Staff expressed opposition on behalf of the War Department to the plans proposed to the commission by Bernard M. Baruch, former chairman of the War Industries Board, for freezing all prices at the outbreak of a conflict.

MacArthur said the War Department believed that, aside from legal objections to such a proposal, injustice and hardship would develop to such an extent as to incite popular dissatisfaction and create distrust toward governmental orders and programs. He added that past experience had shown that similar attempts had "fostered subterfuge and evasion and dried up the sources of supply."

MacArthur proposed a plan for prearranging all governmental purchases that could be foreseen.

A contract has been awarded for the construction of an 11,650-foot bridge across the Zambezi River in Africa. It will be the second longest of its type in the world.

MCCORMICK-DEERING SERVICE — Always Ready When You Need It

YOUR community is served by a well-established McCormick-Deering dealer, as is practically every farming community in the land. His stocks and service are backed up by this large, permanently established International Harvester branch house right here in your own section. In McCormick-Deering dealers' stores the repair bins are well stocked with genuine IHC repair parts. Thousands of these dealers maintain completely equipped service stations, offering factory-standard service on all International Harvester equipment. Additional service stations are being established as rapidly as they are justified by business in the community.

As a direct result, McCormick-Deering service is better today than it was last year or 10 years ago; our resources and reputation are your guarantee that it will be still better when the tractor or any other machine you buy today is 10 years old.

It is our business to protect you in this way, and we take our obligation seriously. It is your business to buy where you get the greatest value; not just the day you sign the order, but through every day and every year you rely on your purchase for cost-reducing work in your fields.

The lack of a small \$1 repair part can easily cost you \$10 or \$100 in lost labor or delayed work, for time flies in the producing

season and Nature waits on no man. Your men cost you money when they are idle, the same as when they are working. When you need service on a farm tractor or any other machine you need it quick. International Harvester knows this out of 100 years of experience with farm operating equipment and maintains complete service to back up every tractor and machine bearing the McCormick-Deering or International name.

Keep this superior service in mind when you select new power or equipment with which to reduce your crop production costs. Compare McCormick-Deering tractors and machines with any or all others—weighing one feature against another and one quality against another—then you will be doubly glad to buy your equipment where you can get the absolute assurance of good, quick, convenient service which is offered you by this International Harvester branch and the McCormick-Deering dealer serving your community.

Farmall Savings Investment Plan:

Ask the McCormick-Deering dealer for details of this new plan under which you or any other responsible farmer can purchase a Farmall and Farmall equipment now and meet the first payment this fall with just a part of the savings made possible by the new equipment in the production of your corn crop, with two years in which to pay the balance.

LOWER COSTS MEAN HIGHER PROFITS

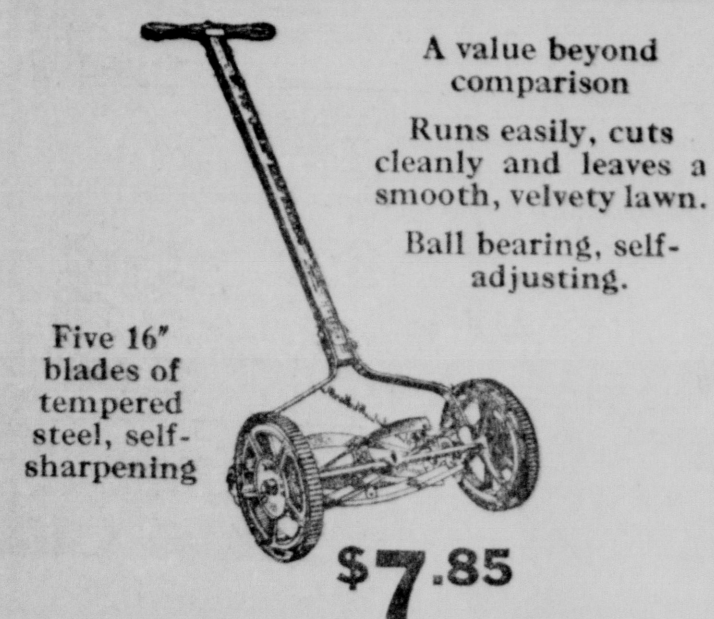

DAILY HEALTH

It has been a well defined impression in the past that tea, coffee, and caffeine-containing drinks are bad for children. On the other hand, there has been a general belief that cocoa is not harmful.

On this subject, Dr. Lydia Roberts points out that few, if any, experiments have been performed directly on children to establish these impressions scientifically. Most of the evidence is derived from studies on animals.

It is, of course, known that the active principles of tea and coffee, namely, caffeine and theobromine, are drugs which in sufficient amounts produce definite effects on the body, the effect depending on the amount given, the way it is given, the condition of the person to

GOOD SWIMMERS MADE NOT BORN DECLARES COACH

Says Helene Madison Was
Developed By Care-
ful Training

New York—(UP)—Great swimmers are made not born, is the conclusion of Ray Daughters, coach of Helene Madison, 17-year-old Seattle maid, whose achievements during 1930 and the present year have stamped her as one of the greatest mermaids of all time.

"Although Helene has been swimming since she was seven years old, she was not an extraordinary prospect, when I first met her," said Daughters, who revealed some of the secrets of developing a champion swimmer.

"When she first came to my attention, she was tall and gawky, stoop-shouldered and knock kneed. Now she is 5 feet, 10 inches tall, and weighs 152 pounds and is well developed and straight as an arrow."

Heavy Foods Needed
"She drinks plenty of milk, but no tea or coffee, and keeps away from pastries. But at this point the diet of a swimmer differs from that of the average athlete. She eats plenty of meat, especially thick juicy steaks, and vegetables, even a few hours before a meet. The heavier food is necessary because the swimmer needs extra strength and bodily heat, to counteract the effect of the water which is enervating and thins the blood."

"Miss Madison sleeps ten hours a day, and sacrifices the lure of parties and good times. It is a great advantage for a swimmer to wait till she is about 14 or 15 years old, before attempting serious swimming. At that time the body has begun to stop growing at its former rapid rate, and a great deal of excess energy should be preserved, provided the aspirant has not burned herself out in early stiff competition, or yielded to the temptation of late hours, dancing parties, automobile rides and more or less serious affairs with boy friends."

Constantly Exercising
"A swimmer should exercise a great deal, but only in swimming. Other athletic exercises are inimical to swimming success as they develop entirely different muscles and interfere seriously with swimming form. Helene devotes a great deal of time and effort to perfecting her apparently effortless propelling movements. She spends five hours a day practicing her leg drive on a board, varying her training with a little leisurely swimming and in preparing for competition, an occasional 25-yard sprint against the watch. In all her races she uses the ordinary crawl stroke."

"Helene has two great natural assets, a tremendous amount of nervous energy and what Bobby Jones once described as the great need of all champions, 'the will to win.' She always goes out for nothing less than first place and is always after the existing record. Although she is proud of her thirty odd records at free style swimming, for all distances from 50 yards to a mile, she cannot name two of them."

E. J. RANDALL Mgr.

It's an air flivver, and William B. Stout, inventor, at the controls, hopes this tiny new plane will have a vogue like the original flivver of the highways. Foot controls are similar to those in the Model T Ford, the general arrangement is like a coupe and the propeller pushes from behind. Designed to make the car driver feel at home in the air, it was shown at the Detroit air show.

STATE TAXES ON AUTO GAS VARY GREATLY

Survey Shows Assessments
Range From Two To
Six Cents

By STU HAWLEY, Director

Texas National Road Reports

New York—(UP)—Probably every motorist breathed a prayer of thankfulness that he didn't live in England when he read their budget proposal to levy a 12 cent tax on gasoline. This levy is to be made with the frankly expressed intention of increasing revenue for other purposes than road construction.

Recent legislative enactments have increased the gasoline tax in several of the states. This summer tourists may expect to pay a two cents tax in Missouri, Rhode Island, Connecticut, New York and the District of Columbia.

In California, Kansas, Minnesota, Iowa, Illinois, Michigan, Massachusetts, New Jersey, Pennsylvania and Delaware the tax is three cents.

A Four Cent Tax
Oregon, Nevada, Utah, Wyoming, Colorado, North and South Dakota, Nebraska, Oklahoma, Texas, Wisconsin, Indiana, Ohio, West Virginia, Alabama, Maine, Vermont, New Hampshire, and Maryland have decided to assess a four cents tax.

The five cents rate applies in the several provinces of Canada as well as in Washington, Montana, Idaho, Arizona, New Mexico, Louisiana, Kentucky, Tennessee, Mississippi and Virginia.

This leaves Arkansas, Florida, Georgia, North and South Carolina who have placed the tax figure at six cents.

An additional tax which ranges from one cent to three cents a gallon is levied by counties and cities in some of the Gulf and Rocky Mountain states.

The division of the sums derived from this tax on gasoline varies in nearly every state. In some states the entire amount is applied to the new and reconstruction of roads and highways. In others a portion is ap-

plied to the retirement of existing indebtedness incurred by the sale of highway bonds while the balance is used for current construction expense.

Varied Programs

The construction programs are nearly as varied as are the divisions of the tax. Some states require each county to pay a definite percentage of the costs of the state highway and in return contribute nothing toward the building, or maintenance of county roads.

A few of the states contribute in various ways toward county road maintenance. A few require no co-operation from the counties excepting rights-of-way for new constructions. Some require no co-operation whatever.

All states are required to contribute a definite portion of the costs of the construction of the roads embraced in the Federal Aid System.

Also only roads of a type approved by the Federal Bureau of Roads can be constructed under this program.

EARLY AMERICAN GLASS

TO BE EXHIBITED

Philadelphia—(UP)—Nearly 3,000 pieces of rare examples of early American glass with a collection of old Philadelphia made Chippendale furniture will be exhibited by the Pennsylvania Society of Colonial Dames.

The glass, mostly Steigal, was originally collected by Leslie Buswell and recently purchased by Mrs. William G. Walker.

The majority of early American glass is the product of one of two well known glass centers; Steigal's at Manheim among the Pennsylvania Germans, or Wister's and other south Jersey plants.

The distinctive features of the Steigal output are the more or less sophisticated treatment and form.

EUROPEAN RACE FOR NAVY LEAD IS TIGHTENING

Fast German Cruiser Is
Worrying Naval
Ministries

By RALPH HEINZEN

United Press Staff Correspondent
Paris—(UP)—The Admiralty of London and the Naval Ministries of all the capitals on the Continent are frankly bothered by news which has come from Kiel where the second of the German "Panzerkreuzer" A-cruisers, the Prusse, is being touched up for launching by President Hindenburg soon.

The cruiser, which has atken 32 months to build at a cost of \$20,000,000, is admitted by French experts to be the greatest small fighting ship ever built. There are many pessimistic experts in the French naval staff who insist that ton for ton the German ship will greatly surpass the new 23,333-ton London-Treaty cruisers France is to build.

Light Engines Superior
The new light-weight engines in the Prusse, which have been brought down in weight to 16 pounds per horsepower unit, have no equal in any other navy and the advantage of the German warship lies in the fact that, fitted with such engines, it can outspeed any other ship in a long cruise. That makes it particularly dangerous as a raider along the commerce sea lanes of the world.

Even among its newest cruisers, Britain has nothing to compare to the Prusse. France and Italy, each allowed two 23,333-ton cruisers under the recent agreement, may de-

Twins? No, Uncle and Nephew!

It's a pretty small world, all right, when a fellow wakes up in a New York hospital to find his own uncle snoring in the next crib. That's what happened the other day when a son, left, was born to Mrs. Benjamin Alpert, who is 17, shortly before another boy, right, was born to Mrs. Samuel Teich, 36, the mother of Mrs. Alpert. The nephew and his uncle are pictured together after they had consented to pose.

Develop something its equal, but the superior tonnage will make the French and Italian ships twice the targets.

The following brief table of comparative statistics shows the merits of these various cruisers:

German Prusse—31 knots; 10,000 tons; 50,000 h. p.; six 11-inch guns, plus smaller batteries; 10,000 miles

radius at 26 knots; mine-proof. British Dorsetshire Class (1930)—10,000 tons; 80,000 h. p.; 32 knots; eight 8-inch guns; 10,000 miles radius at 14 knots.

French 23,333 cruiser (Unnamed class)—23,333 tons; 80,000 h. p.; 30 knots; nine 11-inch guns; 11,000 miles radius at 20 knots; carries six seaplanes.

French Guard Secrecy
Many details of the French super cruisers are being kept secret but the navy department did announce two features that are intended to give it an advantage over the German ships. The French warship will have three turrets of eleven-inch guns and the German cruisers but two turrets each.

Germany is forbidden by the Versailles treaty to carry planes at sea, but the French cruisers will carry four to six for scouting and defense uses, with a catapult. Both French and German ships will fire 678-pound projectiles, which are among the heaviest shells that have been fired at sea.

Making use of their tonnage, the French designers have given their cruiser far greater armor protection than the Germans were able to do with 10,000 tons total. The Germans claim anti-submarine and mine protection which surpasses anything previously devised, while the French claim their cruiser will be imperious to attack from the air and from submarines.

Everywhere Women are Talking About the MODERN COFFEE MEASURE

Our Coffee experts offer you the missing link in definite results in the art of coffee making with the new Modern Coffee Measure. It accurately measures the amount of coffee to make a delicious cup of coffee every time. Set this 25c Aluminum Measure Free with 2 lbs. of National Best Blend or American Home Blend or 3 lbs. of our Breakfast Blend Coffee. You will also receive a booklet on "The Art of Coffee Making."

WOMEN ENGAGE IN PRESBYTERIAN CHURCH SESSION

Will Take Part in the 1931
General Meeting Start-
ing May 28

Pittsburgh—(UP)—For the first time in the history of the Presbyterian church women will have an active part in the General Assembly when it convenes here May 28 for the 1931 meeting. It will continue until June 3.

As commissioners several women will participate in the discussion and voting. The church last year authorized the election of women as ruling elders, thus making them eligible for election as delegates to the assembly.

143rd Annual Meeting
The 143rd meeting of the church in Pittsburgh will be the first session to be held here in 36 years. The last meeting here was held in 1895 and previous to that the assembly met here in 1878.

Pittsburgh was the scene of the famous re-union of the Old School and New School of the Presbyterian church in 1896. The dramatic merger of the two contending groups was effected while assemblies of both were meeting in Pittsburgh.

The 1931 session will be called upon to consider questions of church consolidation, even more momentous than this merger, which was described as "unparalleled in the ecclesiastical history of this country and almost of the world."

Questions of the proposed merger with the Methodist Episcopal Church and the consolidation of the five principal denominations in the so-called "Presbyterian family" will be presented in committee reports.

To Approve Birth Control
Birth control will be approved in one report to be presented while still another will discuss the causes for restlessness among pastors and frequent changes of pastorates.

Newspapers are commended for increased attention to religious news and a suggestion that churches might take a lesson from business in the matter of advertising is made in a report by the publicity department.

Reduction of the number of delegates to the General Assembly from about 950 to approximately 475 members is recommended. A revision of the Book of Discipline will be asked by Dr. Lewis Seymour Mudge, stated.

clerk. Other reports deal with the national and foreign missions.
Dr. Hugh Thomson Kerr, retiring moderator, will preach the opening sermon, May 28.

**CHILEAN WOMAN ARTIST
EXHIBITS PICTURES**
Washington—(UP)—Senora Herminia Arrate de Davila, wife of Don Carlos G. Davila, Chilean Ambassador to the United States, is exhibiting a number of her paintings at an exhibition at the International Art Center of the Roerich Museum. Although Senora de Davila has exhibited on previous occasions, both in Chile and at Washington, this was her first "one-man exhibition."

The exhibition consists of 25 pictures. They include a number of portraits—other figures and some still life studies. Senora de Davila shows great feeling for the modernistic school in her work, and her admiration for El Greco and the influence of that master may be noted in the treatment of her subjects.

Senora de Davila studied painting for seven years with the well-known Chilean artist, Don Pablo Buchard. She has been awarded high honors at exhibits of the official salons in Chile.

GIRL TRIES SUICIDE
Boston, May 4—(UP)—A young woman who said she was Ruth Davis, 24, of the Sheridan Road, Chicago, attempted to end her life by swallowing two ounces of poison in the women's room at South Station here today.

After first aid treatment at Haymarket Relief hospital the victim was taken to City hospital, where it was said she would recover.

The young woman refused to divulge anything about herself except her name and residence.

Particular housewives like our shelf paper. It comes in lovely colors—pink, green, canary color and white. It is nice also for the bureau drawers. In rolls, 10c to 50c. B. F. Shaw Printing Co., Dixon.

Modernistic Sea Monster

Here's a fish's eye view of a modernistic monster of the sea. The openings for cables and anchors on the bow of the U. S. S. Lexington produce a startling illusion in this picture, which was snapped from water level (but on the dry side) of one of the locks of the Panama Canal. The huge airplane carrier, which as you can see here, is "dished" from a normal beam to an unusually wide deck, barely was able to pass through the canal.

WANTED MONEY TO LOAN

SAVE NEARLY A THIRD ON LOANS

ABOVE \$100 UP TO \$300

The Nationally advertised Household Loan Plans offers cash loans of \$50 to \$300 to husbands and wives at reasonable rates. Loans above \$100 and up to \$300 are made at a rate approximately one-third less than the rate permitted by the Small Loan Law.

Strictly confidential. Husband and wife only need sign. No endorsers. Interest is paid by the month, and charge is made only for the actual number of days the money is in use. Come In, Phone or Write.

BRITAIN TEACHES SCHOOL IN DAILY RADIO LESSONS

Daily Lessons Broadcast To Pupils in 3,000 Schools

London.—(UP)—Children in almost 3,000 British schools receive daily lessons over the radio through the national system of education broadcasting which Britain claims cannot be touched in any other country.

Educators from all parts of Europe come to London to study the British system. Recently numerous inquiries have been received from broadcasters and educational groups in the United States.

To Explain System Here
 The British system of instruction by radio will be fully explained to Americans by Sir John Reith, director-general of the British Broadcasting Corporation, when he addresses the first assembly of the National Advisory Council on Radio in Education in New York in May.

For seven years, the British Broadcasting Corporation under Reith has been studying the possibilities of education by radio. Two years ago it was joined by the Central Council for School Broadcasting, an organization representing the principal education interests of the country.

Together these two groups have developed an elaborate program of broadcasting for schools. Each school day afternoon between 2:30 and 4:30, programs are broadcast which supplement the regular courses of study.

The radio courses are divided into four terms which coincide with the four terms of the school year. Courses include history, English, nature study, biology and hygiene and rural studies.

French is Taught
 French, taught by an experienced French instructor, is one of the most popular courses. On Fridays, dramatic readings, such as Shakespearean plays, with concerts on alternate weeks have proved another popular feature.

The Central Council publishes pamphlets which supplement the radio talks. These pamphlets are sold to school for a nominal price. During the winter term, 130,000 pamphlets were sold, testifying to the popularity of the courses.

The Central Council is an independent body subsidized by the British Broadcasting Corporation. Its chairman is H. A. L. Fisher, warden of New College, Oxford, and former minister of education.

BROWN AND WHITE
 FROCK FOR TROUSSEAU
 Paris (AP)—Mlle. Christine de Bourbon, whose marriage to M. Antonio Patino, son of the Bolivian minister to France, will take place in the near future, is among smart women sponsoring the vogue for the brown and white combinations.

Mlle. De Bourbon has chosen a brown and white maroon frock as part of her trousseau. She will wear it with a white wool coat trimmed in brown fox.

The French steamship Espagna recently carried 120 aliens being deported from the United States when it left Galveston, Tex.

THE MELODY GIRL

by RUTH DEWEY GROVES

BEGIN HERE TODAY

BERYL BORDEN, secretly in love with TOMMY WILSON, sneezes in delaying his elopement with her. Nervous during the ceremony, she fails to convince him that it is his duty to his family to go to college.

Later Irene postpones the marriage date believing she is to be a featured radio singer. When she secures an audition she permits Beryl to go with her to the studio. While waiting in an anteroom Beryl sits down at a piano and croons melodies. One of the directors hears her and gives her a private test. Beryl's hopes of a radio career dim as time passes and she hears nothing from the studio.

Then a letter comes and she signs away secretly for her interview. Nervous during the ordeal, Beryl is elevated to ecstasy when presented with a contract. But her victory is bitter-sweet because she fears Tommy will believe she has robbed Irene of her chance. Beryl's "going" celebrates her victory by putting on a show.

NOW GO ON WITH THE STORY CHAPTER XV

"I'll bet Beryl put him up to that cheap trick," the girl had remarked sneeringly. Mr. Dorgan turned quickly in his seat to see who dared so to malign his son.

"Huh," he snorted when he saw that it was Irene. "I guess Mike can think up his own tricks," he added proudly.

His wife dug him in the ribs with her elbow and bade him turn around and keep quiet for his manner was too truculent for a public place.

"Anyway Mike gets a new bicycle," he said with a touch of defiance.

Irene, discomfited by the attention thus called to her, turned upon her companion. "Why did you bring me to this silly show?" she demanded wrathfully.

"Why, you wanted to come!" Tommy stammered in surprise.

"Well, I want to go!" she said and got to her feet. Her companion followed, uncomfortable under the amused glances and half-suppressed grins of those who had overheard the conversation.

"Tommy Wilson, you're a fool," Irene said hotly when they were outside the "circus" grounds. "I didn't want to come!"

"Gosh, Irene, what's the matter with you these days?" Tommy asked. "One minute you're as sweet as sugar and in the next you turn sour."

"Of course you wouldn't understand," Irene replied with a whimper of self-pity. "I'm perfectly wretched and no one has any sympathy for me."

"That's all nonsense," Tommy said boldly. "But if you're so unhappy why don't you marry me?"

"I don't want to marry you just to escape my unhappiness," Irene replied nobly.

Tommy was too much impressed with the sentiment to consider the rapidly with which she had changed from anger to self-pity then to self-sacrifice. Never had he suspected Irene of being insincere.

"What's that got to do with it," he asked. "If you love me?"

"Everything, Tommy," Irene said wistfully. "Don't you see? When I marry you I want it to be because there's nothing else in the world that I want to do more. And right now what I want most is to get away from all this humiliation Beryl has caused. Sometimes when it's hardest to bear—like tonight—I think I'll go away somewhere and . . ."

Her voice trailed away sadly for she did not want to spoil the effectiveness of her threat, which would not be a threat if it were not vague. Just the thought of her "going away somewhere" ought to make Tommy terribly unhappy she believed.

AND she wanted him to be unhappy. She wanted to make someone suffer and he was nearest at hand. His answer filled her with rage but for once she kept it under control.

"Dorgan's not so bad," Tommy said unthinkingly. "He didn't mean anything. But listen, Irene, won't you give me a break? We could be married right away and . . ."

"Oh, please Tommy, I'm so tired," Irene stopped him. "Let's go and have a soda."

Nor would she listen again to his plea. She had to punish him for not taking her part, right or wrong and resenting Mr. Dorgan's rudeness to her. She was irritated too by the fact that Tommy had spoken the truth when he said that she had wanted to attend the boys' benefit show. She had wanted to go to parade Tommy's attentions publicly. Smarting under the interest that everyone was showing in Beryl's sudden claim to fame (Mr. Gaylord's advertising forces were announcing her as a great radio "find"), and sensing that Beryl held a warmer affection for Tommy than she professed, Irene had encouraged him at every opportunity.

She didn't know exactly what she wanted to do. Half the time she thought she would marry Tommy but he somehow always succeeded in upsetting her when they were together. Then, angry with him, she could not say yes. It was a trying position for one who had never cultivated selfishness and Irene was in a maze of doubts.

Well, she thought, looking at Tommy over her soda, she could wait until Beryl actually "went on the air" and then decide. Beryl might be a flop and then home would be home once more.

An Eminent Physician Prescribed this Tonic

A young man Dr. R. V. Pierce practiced medicine in Pennsylvania. His prescriptions met with great demand that he moved to Buffalo, N. Y., and put up in ready-to-use form his well-known tonic for the blood, Golden Medical Discovery. It aids digestion, acts as a tonic, and enriches the blood—clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear. This medicine comes in both fluid and tablets. Ask your druggist for

Dr. Pierce's
Golden Medical Discovery

Minister's Daughter Weds

Resplendent in the costume of the ancient Hungarian aristocracy was Count Bela Hadik when he married the daughter of the Hungarian Minister. The bride was Alice Szechenyi, daughter of Minister Count Laszlo Szechenyi, sister to the U. S. and all Washington society turned out for the ceremony, and the above photo shows her with the bridegroom as they returned from the church.

TIGER'S TOMB
BRINGS RICHES
TO HIS VILLAGE

Clemenceau's Neighbors
Wax Fat on Tourist
Gold

By RALPH HEINZEN
United Press Staff Correspondent
Saint Vincent Sur Jard (Vendee)
—(UP)—The tomb of Georges Clemenceau, carved into the gravel of Colomblers Woods, near Mouchamp, has become a gold mine for this barren region of Vendee. Everything that the old Tiger touched during his lifetime in his Vendee playground has turned to gold, or rapidly is being converted.

The peasant, whose fields surround the woodlot, has put away his plow and has waxed wealthy by putting up a fence and charging pilgrims four cents to cross his fields to the grave. In all the hotels of the region, the gullible visitors are shown 'Clemenceau rooms' and charged for each visit.

When Clemenceau went to Vendee, he generally remained close to his fisherman's hut, but there are dozens of hotels that offer visitors the sight of an authentic lair of the old Tiger.

Shacks Sprung Up
Around the grave and the hut have been hastily erected shacks from which Vendee fishermen and farmers, who have quit their nets and plows now sell plaster busts of the Tiger's garden walls and even dried seeds from his garden.

The Tiger's old chauffeur, Brabant, has grown rich beyond his dreams. Without funds or a job, Brabant came to Saint Vincent upon the death of Clemenceau as custodian of the fishing house. Now tourists who pour through the place leave a stream of gold behind them, generally estimated at from \$20 to \$30 a day.

There has been nothing but quarreling in Vendee since Clemenceau died, so to restore peace there soon will be three fishing huts along the coast, all exactly alike inside and out.

Never Quarreled
During his life, Clemenceau never had any quarrels with his landlords. His little hut was owned by M. Lucie de Tremont and was built on ground belonging to M. de Tremont, Madame Mevin and the French Government. The Tiger paid France four cents a year rent, Mme. Mevin eight cents and M. de Tremont \$6.00.

In the Clemenceau biography, by his secretary, M. Jean Martet, there were several disagreeable references by the Tiger to his landlord, M. de Tremont, angered, at first refused to give up the house for a museum, but finally agreed provided a replica was built and furnished on neighboring ground. That made a pair of the Vendee huts.

Then Secretary Martet decided to build another replica. That makes three huts along the seashore, as alike as three peas in a pod.

A GREAT IRON
and it's yours for
\$7.95 Down

BALANCE EASY TERMS
Small Carrying Charge

THE Thor Rotary Speed Iron will soon pay for itself in pressing bills saved! Skirts, trousers, are quickly pressed in a professional manner. And the average family ironing is reduced to less than 2 hours a week! Results are beautiful. Though it has the pressing surface of 10 flatirons, the Thor Iron is light, compact, and easy to store when not in use. After a single month's use you'll wonder how you ever got through a week's ironing without it.

Prove what we say!

A mother's first duty is t' her home an' family, an' then it don't make much difference whether she's a Democrat or a Republican. Ther's lots o' difference between knowin' ever' buddy in town an' bein' pop'lar.

SCHOOL TO HAVE
SEPARATE ROOM
FOR EACH NATION

15 Foreign Countries Represented in Cathedral of Learning

Pittsburgh (UP)—All parts of the world and all eras of educational history will be represented in the national rooms of the Cathedral of Learning, 40-story skyscraper which will house the University of Pittsburgh.

With the outside construction of the Cathedral nearing completion, attention is turned to the 15 foreign rooms, each of which will be furnished in a way distinctive and emblematic of a particular nation.

There rooms, located on the first

floor, will represent England, Scotland, Germany, Scandinavian countries, Italy, Czechoslovakia, Serbia, Croatia, Poland, Russia, Hungary, Yugoslavia, China and Greece.

Customs of Countries
Where possible the rooms will be designed after the customs and art of the countries as depicted before the 18th century. The art of the various countries was more distinctively national than at later periods when ease of transportation and of communication brought a certain blending of national characteristics.

In addition the seals of the most famous ancient universities of each nation will be placed in the windows of the rooms thus to carry on the tradition of learning as created by the great European universities of the 12th and 13th centuries.

The rooms are being fitted by funds raised by jersons of each nationality represented who are living in the Pittsburgh district. Several governments have co-operated in raising funds and in actual decoration. Some of the rooms are

Does Your
Automobile Insurance
Policy Say What You
Think It Does?

If your car should be burned or stolen, will your insurance company pay you the amount stated in the policy? The amount named in the policy is a valuation used to determine the cost of the insurance, the rate for fire and theft insurance being a certain price per hundred dollars of valuation.

The policy says that in the event of a total loss you will receive an amount not to exceed the actual loss sustained, the settlement to be agreed upon by you and the adjuster for the insurance company. This is the policy known as the "non valued" form.

Then there is the "valued form" policy. Under the terms of this policy you are paid the face value of the policy, the amount on which you have paid premium.

The Inter-Insurance Exchange of the Chicago Motor Club issues a VALUED FORM POLICY, which covers you anywhere in the United States or Canada.

Other services of the club are: Free mechanical first aid and towing service, home district service, accident prevention work, travel service, and bail bond service.

Write or call for further information. Sixty-two branches: 33 downstate; 29 in Cook County. Dues per year \$10.00. Enrollment fee (first year only) \$5.00.

being designed and built in foreign countries.

Folklore and national traditions are to be woven into the decorative scheme. National figures and outstanding events in the life of each nation will be represented in painting, statuary, or memorial tablets. Even the story of each room, its designer and all who aided in bringing it into existence, will be shown by a carved cabinet, or plaque in each room.

TRAINS STEAM THROUGH
BUILDING OF COLLEGE
Cambridge, Mass.—(UP)—Passenger and freight trains now steam along the rails in Massachusetts Institute of Technology.
This is possible because of the de-

velopment of a complete miniature railway system by students in the course in railroad operation.

There are both steam and electric locomotives. There is 200 feet of 2 1/4 inch gauge track. There is nearly half a mile of wires connecting intricate signals that control the movements of trains.

Automatic train control devices and tiny block signals make it safe for the imaginary passengers. Grade crossings are guarded by flashing danger signals and gates that are lowered automatically.

Five complete trains operate over the system.
